#### Plan Affecting Borrowers From Winnabow And Oak View Loan Associations Explained

A plan whereby farmers having Federal Land Bank loans may protect themselves against any post-war slump or crop failures by making payments into a "future payment" fund, which will draw the same rate of interest he is being charged on his indebtedness to the bank, is announced by S. A. Troy, Secretary-Treasurer of the Winnabow and Oak View National Farm Loan Associations.

Under the plan a land bank borrower may now send funds to the bank to be credited with compound interest at the same rate which the member-borrower is paying on his land bank loan.

"The Federal land bank and the national farm loan association feel that this 'future payment' fund offers a number of advantages to the borrowers," said Mr. S. A. Troy. "The borrower who has future payment funds in the land bank has a backlog of security upon which he can draw in time of need to keep his obligation in good standing and carry

### Legion Auxiliary Enlists Members

#### Object This Year Is To Unite Women Of America For Service To America; Membership Drive Now On

Uniting the women of America for service to America is the big goal of the American Legion Auxiliary for 1942, according to Mrs. J. D. Sutton, President of the local Auxiliary Unit.

The Auxiliary hopes to bring a greatly increased number of the eligible women into its own ranks and to inspire others to serve in the various forms of national defense activities open to women, said Mrs. Sutton.

"National unity is essential to national defense," she stated. "The American Legion Auxiliary realizes that today all Americans must stand and act together for the protection of our country and of our free way of life. We know there is much that women can do to strengthen America against the dangers ahead, for in the Auxiliary and in other patriotic organizations we are doing it."

"The Auxiliary, with its broad program of service work, offers the ideal place for service to women whose husbands, sons, fathers or brothers served in the war of 1917-1918. In the Auxiliary there is something they can do for America today. They can take part in the activities by which we are training for the defense of our communities and homes in case war should come to America, or in the activities by which we are helping build up the forces that will keep war away from America."

"In the Auxiliary program there is something useful for every eligible woman to do, no matter what are her interests and abilities. As never before, she is needed in the Auxiliary at this time. There is little she can do as an individual, but united with the other 520,000 women of the Auxiliary, her efforts can be made to count greatly."

The Brunswick county Unit of the Auxiliary is now actively enrolling its membership for 1942. Wives, mothers, sisters, and daughters of members of The American Legion, and of deceased veterans of the World War are eligible to membership, as well as women who themselves were enlisted in the World War forces. All are being invited to enroll in Brunswick county Unit at this time.

from the beginning of the program, or since organized health work was started in the county, all approximate.

In Vocational Rehabilitation approximately \$2,642.92 has been distributed in the county. In case

of Child Welfare Services, county funds are not available. Fourteen counties, Anson, Buncombe, Burke, Caldwell, Chatham, Cherokee, Cumberland, Durham, Mecklenburg, Nash, Orange, Pitt, Rockingham, and Sampson, cooperated by supply \$13,026.78 and participated in distribution of \$27,605.63 in the year 1940-41, and 38 other counties had consultant service.

The county figures for the four "service" divisions above are approximate, and not absolute. They are arrived at by prorating the funds, made up of Federal allotments, most of which is matched by the State and counties, on the basis of State and county populations, 1940 Census, and the length of time the counties have had health departments and thus participated in the three "services" relating to health, Chairman Fletcher explains.

After half an hour he brought his prize, a seven foot sail, alongside. Slatts left the wheel, raced astern and officiated at the gaffing ceremonies and assisted in getting the fish aboard.

Half an hour later the same procedure was being followed again, with slight variations. Skipper Roberts was up forward, minding Mildred and cursing at Slatts. Slatts was down in the cockpit, doing some of his own. He was fast onto a five-foot sail. His yells were so loud that the occupants of another boat, fishing a mile away, heard him and thought that the Mildred must be on fire.

Two sails in one day was enough for the two men, and they came home.
