 During the last six months, says the public relations officer, as a result of constant study and refinement in instructions, accidents in training have been reduced to the point where a Paratrooper student has less than a one per cent chance of being injured.

NIGHT COUGHS
 YOUR CHILD'S coughing at night—caused by throat "tickles" or irritation, mouth breathing, or a cold—can often be prevented by rubbing throat and chest with Vicks VapoRub at bedtime.
 VAPORUB'S poultice-and-vapor action loosens phlegm, relieves irritation, helps clear upper air passages, thus tends to stop mouth breathing and invites restful sleep. Try it!
