Tell him we're cutting pulpwood!

I SEE here in the paper that General Somervell says, 'We would rather fire a ton of munitions than lose a single American soldier'.

"That's the way I like to hear our generals talk because that 'single soldier' might be our boy. So when the government says the shortage of pulpwood may hold up the supply of munitions, I'm going to cut every darn stick I can.

"You just tell the boy to keep on doing his best over there and we'll do our best to back him up over here."
