THESE BRAKES

ARE JUST

RIGHT!

We urge every motorist to have his brakes checked and to keep them in good working condition at all

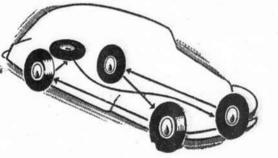

times—However—

### REGARDLESS

of how good your brakes are—your life and the life of others is endangered if

## Tires Are Worn Slick

Because good brakes will make smooth tires skid.

BE SURE TO HAVE

### Your Brakes Checked----

BRAKES have a lot to do with premature tire wear. Faulty brake adjustment leads to irregular wear on the treads, shortens tire life-and endangers yours.

# Tires and Life

ARE BOTH WORTH SAVING-We are equipped to help you save both-and a safety inspection will give you new confidence and satisfaction!

Let us check your tires today and Re-Cap them if they need it-If they are worn too thin-and you are entitled to new ones-let us sell you good Grade I-

# A WAR-TIME JOB WITH A POST-WAR FUTURE?

How can you get

Pulpwood is one of our most serious war-time shortages. The need for more manpower to meet this critical shortage is especially great now that the Supreme Command is appealing to the American people to increase the flow of supplies.

Pulpwood has found many war uses. From it are made explosives, towlines for gliders, plastic plane parts, shipping containers and thousands of other things. Pulpwood work rates with the most essential war industries. But it is work that will continue after the war.

### "Critical" War-Time Jobs The Future of Pulpwood

The many war-time developments in the use of pulpwood have opened the way for equally great peace-time uses. The pulp and paper industry-the nation's 6th largest - looks forward to even greater expansion. It'll be a good business for you to be in after the war as well as today.
