**NORTH CAROLINA—STATE OF Progress!**

With an unpleasant job behind us, North Carolina turns from the destruction that is war to the arts of peace to again devote its full energies toward the building of a more progressive economy. Few states can equal the record achieved by North Carolina in the past two decades. In commerce, in industry, in agriculture; in education, in government and in social progress, the Old North State enjoys a justly earned reputation for being "out in front."

The future beckons with potentialities far greater than anything achieved in the past. A state of vast resources populated by a progressive and friendly people spells opportunity unlimited for North Carolina.

The Seaboard Air Line Railway, like North Carolina, made its full contribution to the winning of the war. As an integral part of North Carolina, the Seaboard joins its friends and neighbors of this great state in the call... "Back to Progress."
