

# "BUY IN BRUNSWICK"

*"Yes Sir! That's Mighty Good Advice. I Figure That I Save Time And I Save Money When I Trade With The Merchants And Businessmen Of My Own County"*

Money that you spend at home continues to circulate within your own community, and it helps to stimulate all kinds of businesses. When you spend your money with a home merchant or business man you help him to do his part in carrying his load as a good citizen and a tax-payer.

When you trade at home you not only help your neighbor to stay in business, but you are helping the general progress of the county. Brunswick has made encouraging progress along many lines during the past 10-year period, but there is a need for every possible job-giving business.

Another thing to remember is that you help yourself as well as others when you buy from your neighborhood merchant. The next time you are tempted to make a trip for a small difference in price, just add in the cost of the trip you are making, and see what your net cost will be.

## COMPLETE MERCHANDISING SERVICE IS AVAILABLE FROM THE FOLLOWING FIRMS:—
