

# “You Can Dream A Dream and Make It Come True Right Here In Brunswick”

Just give the casual visitor a few hours in Brunswick county, and right away he starts thinking of things that can be done and should be done to develop this region. In years gone by much of this thinking has gone up in the smoke of pipe dreaming, but with the present trend of expansion and improvement, many are turning to the wonderful, undeveloped possibilities of our county.

The kind of development in which we are mainly interested is the kind that will bring us new citizens, who will build for themselves new homes, who will bring with them new ideas and who will lend their efforts toward making Brunswick county a better place in which to live. We like the kind of people who want to cast their lot with ours, and with whom we have a common interest.

Already there is a nucleus for growth over our entire county, for in every community you visit there are progressive, wide-awake business men who are ready to render whatever service you may desire. Nor do these men stand pat on their minimum requirements. The merchants and business leaders of Brunswick county are keeping pace with the growth and development of this section.

... And No Matter In What Community You Settle, You Will Find Friendly, Dependable Merchants . . . .
