BRUNSWICK**

Brunswick
Sure, It's the Same Tune
Over and Over-But It's
A Mighty Hard Record to Beat!

We don't mind bragging about Brunswick county and her possibilities, because we really believe in them. That's why we never miss an opportunity to tell some visitor or business acquaintance of the many fine undeveloped resources of this area. There's the climate, there's the soil, there are our forest resources, our pasture land, our rivers and our ocean frontage. Makes no difference in what direction your interest may be directed, you can find something in Brunswick that will fill the bill for you.

Another thing we never tire of talking about is the people of Brunswick. You can travel the world over and you will not find a more friendly and cooperative group of citizens than you have for neighbors anywhere in this county. There may be places in the world where the people work more feverishly, hold more grimly to the material things in life. But the people of Brunswick county know how to get the greatest possible amount of pleasure out of living, and they enjoy every day the blessings that others work a lifetime to have when they retire.

.... AND THESE MERCHANTS AND BUSINESSMEN TAKE PRIDE IN THE PRODUCTS AND SERVICES THEY OFFER!!
