 he may be making in New Jersey. Last week a fellow advertised a cow for sale in this paper. Yaskell promptly telegraphed us to offer \$12.00 for the heifer for him. (Although we did not say anything about it at the time, we thought how lucky we were that Yaskell was not the postmaster at the time when Walter Hovath, of New York, sent us a new minnow trap by parcel post.)

We were in the Johnson cafe at Bolivia one day recently. Recalling a tip given us by Miss Ruth Patterson, welfare agent for Brunswick, we asked Mrs. Johnson about the gastronomic abilities of Albert Doshier Robbins, a fourteen or fifteen year old boy of the community. Mrs. Johnson advised that one day recently Albert got hungry and came around for something to satisfy the hunger. Without pausing he ate 11 fully dressed hot dogs, washing down the barkers with three twelve ounce bottles of pop and then eating two ice cream cones for dessert.

Our idea of State Highway Patrolman J. C. Pierce, Jr., at Shallotte is that the fellow knows the answers to what a newspaper man may ask when he is following up

nothing but cite them for trial. They do not try them or fix the amount of the fine. As a matter of fact, our opinion is that the patrolmen lean the other way out of consideration for the tourists. If they arrested every one they found breaking the speed laws on No. 17, court would have to be in session six days each week just to dispose of speeding charges.

Although the family moved from Southport half a dozen years ago, when the Rev. R. S. Harrison was transferred by the Methodist Conference to another church, he and his family still like to keep up with things in Southport and Brunswick county. A letter received from him this week from Fayetteville, where he is now stationed, said that The State Port Pilot helped them to keep up with things.

W. C. Mull, of the Standard Hosiery Mill at Burlington, while sending his renewal to the paper this week, took time to ask why we do not publish a weekly tide table, showing the high and low water periods at Southport, Lockwoods Folly River at Supply, Town Creek at Highway 17 bridge, Shallotte River at Shallotte and on the Brunswick and Cape Fear Rivers near Wilmington. Since the best fishing is usually dependent on the high and low tides, Mr. Mull seems to have a really good idea for the paper to follow.

From down at Lake City, S. C., where he takes the paper, R. S. McClam wrote in this week to ask if we were still getting shrimp and saying he could sure make use of some now. For the information of this good subscriber and others, it may be said that some days the boats get some shrimp, and they are of mighty good quality. Other days they do not bring in anything but fish. Things are more or less dependent on the weather.

Since he came here from Whiteville, we have had a suspicion that the Rev. L. D. Hayman of the Methodist church was something of an uplander—ten-foot to you—but he dropped around to the office Monday and proudly told us that he was a real old salt. Seems that the brother of the preacher is Captain of one of those big sea-goat tugs that ply along the ocean lanes. The big boat put in at Wilmington Sunday, and according to the preacher himself, he visited the boat and skipper. It seems that the Skipper-brother allowed the Preacher-brother to ride on the bridge all the way down to Southport.

Although they are getting only a few hundred pounds, local shrimp trawlers have been bringing in some of the largest Virginia mullets, or whiting, that have ever been caught here. Monday night John Simmons, first mate to one of his brothers, dropped in at this office to report that they had got over a hundred pounds of very large headed shrimp. In addition to these they made quite a catch of the big Virginia mullets.

 is now probably the best policed highway in this area. It is said to really need this policing. It has been claimed that more than a hundred cars break the speed laws on this road every day. The officers make arrests in only a fraction of the cases and a check-up of court records here show that the average fine on tourists cited to appear in court is less than \$8.00.

**How You Can Help Your Beer Retailer**

Most beer dealers are anxious to cooperate with the brewing industry in its program of Self-Regulation. They know it is good business to keep their places clean and wholesome, and to operate within the law.

Most of the occasional violations of the law occur at the instance of the customer. This Committee urges you not to request special favors involving a violation.

Patronize places that always operate in the public interest. Commend those who are noticeably careful about law observance. Compliment the man who operates a clean, orderly place.

It is the purpose of this Committee to cooperate with law enforcement authorities to weed out the few who flout the law, and to keep the sale of beer on as high a plane as that of any other commodity.
