Whiteville Leads **Border Markets** In High Average

Sales Supervsior Neilson Reports That The Market's \$53.69 Is Highest In The Entire Belt

SALES TOTAL CERTAIN **TO PASS 1946 FIGURE**

Schedule Has Been Made Out For Market To Continue In Operation For Four More Weeks

The Whiteville tobacco market is leading the Border Belt with a price average of \$53.69 per hundred pounds, Sales Supervisor Dave S. Neilson reported today. The market official also said

that "we're not too far off in dollars paid out and poundage from last year."

The market today began its
35th sales day with a certainty
of passing the 1946 mark of

thirty-three and one-half million pounds, which was the record prior to last year, and with bright prospects of reaching 35 million

Whiteville's sales total was given a big boost last week when 5,526,592 pounds were auctioned for \$3,006,084.46. The avtrage was \$54.29 for the week. To indicate the highly satisfac-

toryy market conditions, Neilson listed the results last week. These were as follows: Monday - 1,150,554 pounds;

\$56.55 average. Tuesday-1,150,554 pounds; av-

erage \$54.29. Wednesday - 1,045,556 poundes \$53.75 average.

Thursday - 1,035,532 pounds \$53.45 average. Friday - 1,090,618 pounds;

\$54.61 average. The season total to date now stands at 28,748,436 pounds. Producers have received a total of

\$15,431,052.64. This compares favorably with the record for a corresponding number of days last season. At this point in 1951, warehousemen had sold 31,079,810 pounds for \$16,604,028.97. The average

then was \$53.42. "It may be seen that the market has dropped less than eight per cent," Sales Supervisor Neilson commented. "The difference in dollars received by the farm-

linue in operation has not been determined definitely, but the market schedule has been made

out for four more weeks. Operating with two sets of buyers, the Whiteville market will

next three weeks.

Average daily sales are expected to be about 600,000 this

Record Rainfall Recorded Monday

The immediate Southport area had the biggest rain in recent years Monday when the local weather bureau reported a total of 7.69-inches during the 24-hour period beginning at 6 p. m., Sunday.

As a matter of fact, most of the rain fell between 6 a. m., and 3 a. m., Monday afternoon and none who saw it doubted that a record was being set. Water ponded in all low places as water sewers were taxed to capacity. Unpaved streets of the city suffered some damage from washing.

There was general rain all throughout the county and water crossed the highway in man places. However, reports indicate that the center of the storm was in this immediate

Report Robbery Of Russ Station

Woodrow Russ Service Station in Shallotte was broken into and robbed of some building material, carpenter tools and an electric fan several days ago. Deputy Drew Long investigated robbery and recovered the fan and carpenter tools, said to have been found in the possession of E. L. Lovett, white man of Shallotte township.

Lovett was arrested and charg-ed with the robbery. Also arrested was Marvin Cumbee, another white man of the same township. Trial of both men was deferred at this week's session of the Recorder's Court, as it is said that additional arrests will be made in the same case.
