Golden Wedding

Mr. and Mrs. Luther Wilson of Little River, S. C., celebrated their 50th wedding anniversary, Wednesday afternoon, January 6, with an open house from 3 to 6 o'clock at their home.

Mr. and Mrs. Coke Floyd of Conway greeted the guests at the door. Mr. and Mrs. Bailey Russ of Shallotte invited the guests into the living room and presented them to Mr. and Mrs. Wilson. The living room was beautifully decorated with arrangements of golden gladioli. Mr. and Mrs. Thomas Russ of Myrtle Beach presided over the gift tables.

Mr. and Mrs. Eric Wilson invited the guests into the dining room where individual cakes decorated with golden wedding bells,

golden punch, cheese curls, mints and nuts were served by Mrs. Lam Britton of Chesterfield, S. C., Mrs. Ralph Ellis, Mrs. W. B. Tyson and Miss Louise Stone.

The dining table was lovely with a Maderia cut-work cloth, centered with a golden arrangement of rosebuds and snapdragons and golden candles in brass candlesticks. A three-tier anniversary cake, topped with a golden bell, graced on one end of the table. A lovely arrangement of gladioli and candles decorated the buffet. A lovely arrangement in a white basket was placed in the hall where the register was presided over by Mr. and Mrs. Vance Kinlaw.

Mrs. Wilson was dressed in black and her corsage was a yellow orchid.

Mr. and Mrs. Wilson have four

daughters and one son. The daughters are Mrs. Thomas Russ of Myrtle Beach, Mrs. Bailey Russ, of Shallotte, Mrs. Vance Kinlaw of Little River and Mrs. Coke Floyd of Conway. Their son is Eric Wilson of Little River.

During the afternoon about 100 guests called. Out-of-town guests were from Myrtle Beach, Conway, Florence, Marion, Shallotte, Clarkton, Bladenboro and Wilmington.

**miracle...
in a nutshell!**

Today's good telephone service will be even better tomorrow thanks to the transistor, a tiny electronic marvel that would fit in a nutshell.

The transistor — invented by Bell System scientists — can do the work of a vacuum tube used in telephone, radio and television equipment and many other things a vacuum tube can not do. It is so small and light, yet so strong and reliable, that it has been called the "mighty midget".

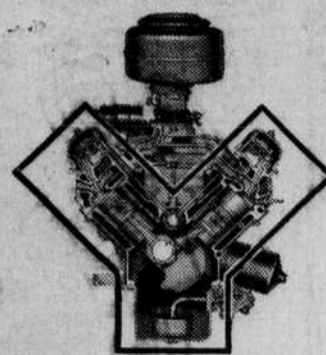

A miracle, yes — but only one of many Bell System advances along the road toward more and better telephone service. To bring these new advances and to keep service good and growing requires a fair profit on the money invested in telephone equipment.

With many "custom-built" choices
One of the biggest advantages of the more expensive cars can now be yours for Ford prices. That is choice. For instance, Ford makes available an option of three great drives: Fordomatic Drive, Ford Overdrive, and Conventional transmission. Ford also makes available all the optional power features you'd expect to find only in the costliest cars.

With a new 130-hp. V-8
It's a brand new Overhead-Valve engine of deep-block, low-friction design offering 18% more power... quieter engine operation... better economy, too.

With a new 115-hp. I-block Six
Like the new V-8, it has deep-block build for greater rigidity, longer engine life. Like the V-8 it has low-friction design plus high-turbulence combustion chambers.

With new Ball-Joint Front Suspension
This revolutionary new suspension is far simpler and more compact than conventional suspensions. It allows greater up and down wheel travel for a smoother ride... helps keep front wheels in line longer for consistently easy handling.

With five optional power assists you'd expect to find only in America's costliest cars
These fine-car power options are available in Ford at extra cost. You can have Master-Guide power steering, Swift Sure Power Brakes, a 4-Way Power Front Seat, Fordomatic Drive (or Overdrive) and Power-Lift Windows!
