CANDIDATE FOR SHERIFF

Law Enforcement is one of the most important functions of our County Government and there is no more responsible position than that of Sheriff. This office requires the services of a man of good judgment, a man who will be fearless and a man who will deal fair and square with everyone—white or colored. I believe that I possess these important qualifications, and this is why I am asking for your vote and support in the May Primary.

ALEX WILLIAMS

CANDIDATE for COUNTY COMMISSIONER

I am a life-long Democrat and I never have missed spending election day at my home precinct, even during the time that I resided in another county. I have served my party to the best of my ability, and this is the first time that I have come before the voters to ask for their support for an elective office. I am a candidate for the Board of County Commissioners, a position that I recognize to be one of the most important in our county government. I wish that it would be possible for me to see all of you voters in person, but this is a big county and I am tending a two-horse farm by myself. If you nominate and elect me, I will fulfill the duties of the office to the best of my ability, and I shall be grateful to you for your support.
