Piver; 1:40 business, report of committee on nominations, report of committee on location of 1956 sessions, miscellaneous; 2, the Woman's Missionary Union, Mrs. Jewel M. Ward; address, Mrs. C. Gordon Madley, President Woman's Missionary Union, Baptist State Convention.

These plans became reality with the appropriation of some \$200,000.00 for building and construction at the Blackhawk airport, 4 1/2 miles away. Construction is scheduled to be completed by next summer.

A-30 WILLIAM C. SELLERS, son of Mr. and Mrs. Harry Sellers, Supply, has entered the United States Air Force Technical Training School at Sheppard Air Force Base, located near Wichita Falls, Texas. During his specialized training as a student at Sheppard, he will receive intensive training designed to provide him with the thorough knowledge and basic skills which he will be required to possess for his work as

Men In Service

DONALD F. ALLEN, air controller first class, USN, son of Mr. and Mrs. John F. Allen of Ash, is serving with Fleet Aircraft Service Squadron 230 at the Hendon Royal Air Force Station in England. Middlesex is a suburb of London. The squadron operates R4D-8 Super Dakota type aircraft out of the Hendon Airfield, whose longest runway is only 3000 feet in a densely populated area. Due to the adverse operating conditions, plans for permanent relocation of the squadron at a more suitable airport have long been underway.

an aircraft and engine mechanic. He is currently assigned to the 4th Air Force, where he is responsible for the maintenance of aircraft engines. He has been in the service since 1948 and has completed various technical courses.

EARL W. SMITH, Jr., son of Mr. and Mrs. E. H. Smith, is currently assigned to the 4th Air Force, where he is responsible for the maintenance of aircraft engines. He has been in the service since 1948 and has completed various technical courses.

ALAN W. SMITH, son of Mr. and Mrs. E. H. Smith, is currently assigned to the 4th Air Force, where he is responsible for the maintenance of aircraft engines. He has been in the service since 1948 and has completed various technical courses.

He stated in his first letter that if the location was found he would bring on 100 to 150 personnel, these being stars, actors and technicians for the filming of the production. It is expected that the picture will be filmed in January and possibly six weeks may be required for the production.

Parker, like the local man, believes that there is something in the contact and he is joining in the undertaking to have the picture made here. Photographs were made Thursday of scenes that might aid in interesting the producer and both Parker and Keziah are stepping up efforts to bring the movie company here.

By way of local encouragement to the effort, it is pointed out that the producer himself made the contact, asking what was to be had in the Southport area.

The most compact baler ever built!

NEW HOLLAND'S sensational model

Makes hay baling practical on almost any farm
It's self-powered... makes square, extra-size bales
Costs hundreds of dollars less!

The surprise of a lifetime! That's the New Holland Twin-Tie "66"! We'll wager you've never seen a baler so compact in design... so completely new!

You'll be amazed the first time you see the "66". It's shorter and lower than most balers. It's designed to operate with a one or two-plow tractor. It's priced so low that even small-charge farmers can now afford the finest in baling equipment.

Now you can enjoy the benefits of having your own baler on the farm. You can bale your hay the moment it's ready to come in, and bale it fast for minimum spoilage by sun or rain.

New pre-compression baling action gives the "66" unusual capacity. It can bale out 6 square bales a minute... produce up to 7 tons of hay on level. And it bales anything—clover, alfalfa hay, sudan grass, rye.
