

# High Times

by LOLA MAE GORE

"Been waitin' for the bell to ring so I could go home," and if I'm not mistaken Rickie Nelson has another hit on his hands!! He really seems to be coming up in this world. Who knows, he may someday take Elvis' place! "That'll be the day." Why don't some of you wonderful people around here take a stab at making a recording. Wonder just how far you could get? Who knows, maybe we have some hidden talent around here and it's probably really hidden!! We teenagers really seem to go for that jive and rock and roll if nothing else. I have heard some rumors that rock and roll is being voted out in some of our surrounding communities. Well, I think I can speak for us all when I say it'll be a low degree when it voted out among us.

Last Friday night our boys came home with a victory they have long been awaiting. After an over-time and a very exciting game the Dolphins won with a 62 to 60 score over Leland. The girls were less fortunate when they lost by a rather large margin. Judy Young led the girls with 28 points. Friday night we are host to Atkinson. This will be our last game until the tournament, which begins next Wednesday. As most of you probably know, work has been started on the gym in order to make it more convenient for the tournament. This year it will be held in our gym. Let's make it a point to welcome our visitors and by all means let's respect the referees.

Last Monday morning during 2nd period a aptitude test was given to grades 7 through 12. The test lasted about 35 or 40 minutes and most everyone seemed to have the feeling they did o. k. The seniors are especially interested in knowing just what their I. Q. is, as some of us have a feeling it could be very low.

The senior class has chosen a committee to select a class play which is to be presented on March 14. Two or three plays will be selected and one will be chosen. A comedy has been decided on. Those on the committee are: David Kincaide, Donna Larsen, Pat Bevel, Jerry Jones, E. W. Sellers and Lola Mae Gore. Rehearsal will begin after the basketball tournament.

The junior class seems to be working on and deciding upon the junior-senior prom which will be held probably during the last of April. We hear they have chosen their theme, but it seems as though they change it every week. Let's hope, and wish them good luck in their future process of presenting this, the biggest event

of the year.

**SEEN AROUND:** Neuder, who taught you how to play cards? Isn't "Tear Drops" the most? Marcell, Sag and Gore going to Wilmington to take the East Carolina entrance exam... Mrs. Galloway wearing a real pretty green outfit to school Friday... Who's been writing on the walls? Oh, those glorious weekends! Gehrig working on the annual at Wilmington College. Who knows, some day he may work with the New York Times... Everyone around here really happy over our beating Leland Friday night... Girls, its about time we went to Wilmington to get our formal... Don't forget the Valentine's Dance Saturday night!! Bill looking mighty happy these days. Wonder why?... "Happy Valentine", Foul.

That's it for this week. Be good and I'll see you at the Valentine's Dance at 9 o'clock Saturday night in the U. S. O. building.

## News From Holden Beach Community

By MRS. CHAS. H. GRAY

Friends of Elwood Caison will regret to hear he is confined to his bed from a fall that fractured a vertebra in his spinal column, when the scaffold on which he was standing collapsed. He will have to remain in bed for several months before a brace can be fitted to his back. The people in this community and elsewhere are doing all that they can to help this family in their distress. The family wishes to express their gratitude for all of the aid they have received, and will receive, during the illness of their husband and father.

On Sunday afternoons members of Sharon Methodist Church go to the aged, sick and afflicted in the community that are unable to attend services in the church. These services are conducted by there pastor, the Rev. Mr. King, or members of the official board. Other demonstrations are invited to attend. The next prayer meeting of this kind will be held in the home of Mr. and Mrs. Wiley Hewett of Boons Neck.

The quartet of Sharon Methodist church gives the congregation a treat each Sunday with their special. The young men singing in this quartet are James Elliot, Darrel Davis, Chad and Kenneth Phelps. Mrs. Kenneth Phelps is the pianist. They are being trained by John Herbert Holden. The church is grateful to Mr. Holden for the time, talent and energy he is spending with the youth of this church. The M. Y. F. adult counselors of this youth program are Mr. and Mrs. Carvin Roach.

We have a very interesting community known as Silver Hill, so named by R. P. Robinson, Jr. When Mr. and Mrs. R. P. Robinson, Sr. went into business at this crossroad several years ago, R. P. heard his step-mother make a remark "that where ever she went in business, a town would build around her". So R. P., Jr. being quick to think, decided that Silver Hill would be the right appellation. In Silver Hill we have two grocery stores, owned and operated by Mr. and Mrs. J. E. Tindall and Mr. and Mrs. Willie Griffith, and a service station operated by Mrs. Waldo Hewett. Sharon Methodist church is also located here. There are about 50 homes in this section called Silver Hill. Mrs. R. P. Robinson prophesied came true.

Mr. and Mrs. Charlie Caison are spending some time in Florida. They will start building a new home in the spring. Mrs. Caison is the daughter of Mr. and Mrs. Roney Varnum.

Mr. and Mrs. T. H. Phelps spent Monday in Southport attending to some business and for medical attention.

We are sorry to hear that L. S. Holden is not feeling so well. We wish for him a speedy recovery so that he may enjoy the summer that is ahead.

In the local stores where men and women visit to talk over the past, present and future, we hear gardening as the chief topic of conversation now, so we know that spring is here. When spring is here, summer is not far behind. Then Holden Beach will become alive with people yearning to catch the first fish of the season. All up and down the fishing docks you will hear "I have had a bite". Then you will feel a thrill hit to your bait. What a thrill you will think you have a whale! Little by little you will start reeling in and by the time you get the fish safely landed it has shrunk in size until you can hardly find it. The fun of fishing is not the fish that bite, but the ones you are expecting to bite. Fishing is great expectations!

May we say this about our beloved city of Southport? We think at last Southport is wide awake—alive to its great possibilities! For years it slept peacefully, with never a "snore" arouse its complacency. Almost overnight new business sprang up, modern stores were built with every modern convenience. The residents of the city really gave the sleepy town of Southport a face lifting. To me it is a beautiful place. I like to sit and watch the view of the Cape Fear. In my imagination I can see those ships, with their sails spread ready and waiting to start their voyage on the high seas with only a small compass, sun, moon and stars to guide them in their adventure. Some of those tars would never reach their destination. How they must have loved to have salt spray to beat on their faces and the scent of the ocean in their nostrils! This part of Southport will never need rejuvenating, for this view was put there by the Great Artist.

MORE THAN 4,700,000 Scouts, Boy Scouts, Explorers, and adult leaders throughout the nation will observe Boy Scout Week, February 7 to 13, marking the 48th anniversary of the Boy Scouts of America. Boy Scout Week sees the launching of a yearlong Safety Good Turn program suggested by President Eisenhower, Honorary President of the Boy Scouts of America. In cooperation with other organizations giving leadership in safety, the Scouts will promote traffic safety, March, April, and May; outdoor safety in June, July, and August; and home safety in September, October, and November. Above is this year's official poster.

## NC Dairymen Meet Feb. 18-19

The annual North Carolina Dairymen's Conference will be held at N. C. State College February 18 and 19. Registration upon arrival at the conference is also permissible.

Some 500 dairy farmers, large and small, from throughout the state annually attend the two-day conference, making it the largest short course conducted at State college each year.

Those who attend will hear up-to-the-minute discussions of market prices, the effect of national dairy programs, opportunities for dairymen in North Carolina, milking machines, pipeline milkers, but tanks, weighing and sampling devices, reports on roughage research, silage and nutrition, forage production, trench silos, and forage utilization.

A new part of the program this year will be the presentation of certificates to those dairymen who have attended five consecutive conferences.

State DHIA production efficiency awards will also be presented, along with 4-H dairy production awards and artificial breeding technicians awards. A host of nationally prominent speakers have been secured for the conference. Registration in advance will be accepted through the division of college extension, N. C. state col-

## With The Men In Service

Robert T. Johnson, son of Mr. and Mrs. Archie Johnson of Bolivia, graduated from recruit training Feb. 1 at the Naval Training Center, Great Lakes, Ill. The graduation exercises, marking the end of nine weeks of "boot camp", included a full dress parade and review before military officials and civilian dignitaries. In nine weeks of instruction, the "raw recruit" is developed into a Navy Bluejacket, ready for duty with the fleet.

BEAMON HEWETT, boilerman third class, USN, of Shallotte, departed from Mayport, Fla., Feb. 1, aboard the attack aircraft carrier USS Saratoga for duty with the U. S. Sixth Fleet in the Mediterranean. A "floating fortress", the carrier is capable of carrying more than 100 aircraft and can launch four fully-armed interceptors in less than 90 seconds. An angled flight deck makes it possible to land and launch aircraft at the same time. The Saratoga has recorded over 10,000 landings, or her 4 1/2 acre flight deck, since being commissioned in April 1956.

OSTER ROAST The young people's class of Gospel Center Baptist church in Yarnumtown is sponsoring an oyster roast Saturday afternoon from 4 to 8 o'clock. The proceeds will go toward a new church building. The public is invited.

## Southport Boy Honor Student

FORK UNION—Cadet Michael A. Hardee, son of Mr. and Mrs. Lewis J. Hardee of Southport, has been selected as the Best Drilled New Cadet at Fork Union Military Academy, Fork Union, Virginia for the past week.

Competition is conducted weekly by the U. S. Army ROTC Instructor Group at the Academy, for the purpose of selecting the cadet most proficient in Military Drill. All new cadets compete for this title.

Cadet Hardee's selection was based upon knowledge and proficiency of the manual of arms with the rifle and other drills. He entered FUMA in September 1957. Cadet Hardee has also attained the honor roll for academic proficiency while at Fork Union Military Academy.

BENEFIT SUPPER The Sharon Methodist Church is sponsoring an oyster roast at Bellamy Landing on March 1 to raise money for Edward Caison from Holden Beach who fell and broke his back while working.

The Navy icebreaker USS Glacier has crashed through ice up to 25 feet thick at McMurdo Sound, Antarctica.

STATE DEATH TOLL Through 10 a. m. Feb. 3, 54 persons had died in highway traffic accidents this year. In 1957, in the same period, 112 were killed, according to the department of Motor Vehicles.

## Fertilizing Now Best For Grains

A tested formula for small grain production is a good stand plus nitrogen which equal a good crop of harvested grain.

Nitrogen increases yields by promoting large numbers of heads per unit area, more kernels per head, and increased average weight per kernel.

Small tiller buds are present around the crown of small grain plants. These buds will grow only if sufficient nitrogen is furnished for that plant. Each of these new tillers, or stems will produce an additional seed head.

In addition, adequate amounts of nitrogen also encourages rapid growth of plant stems and leaves. These healthy green leaves combine light, water and carbon dioxide into plant food. So, sufficient amounts to nitrogen aids this plant to make extra kernels per head and increased weight per kernel.

Quality of grain is also improved by nitrogen fertilization. A little extra nitrogen will often hold a stand of small grain against attack from certain insects or parasites.

A little extra nitrogen is very effective against plant lice, which are a problem in some areas. Contact the fertilizer dealer now and arrange for convenient delivery of nitrogen in plenty of time for applying in February.

Marines were stationed on board more than 500 ships of the U. S. Navy during World War II.

# New Registration For Frying Pan Precinct

Following the fire which damaged the Brunswick County Court House on December 13, 1957, members of the Brunswick County Board of Elections met and examined the records of their office. The Registration Book for Frying Pan Precinct in Shallotte Township, was found to be missing. The registration books for all other voting precincts were found, and are in condition to be transcribed.

In order to have a list of eligible voters as a basis for conducting the Primary Election on May 31, 1958, a New Registration has been ordered for this missing precinct.

Registration will be done by the duly Appointed Registrar—  
**MRS. LESLIE CHADWICK,**  
 On The Following Dates At The  
**L. C. ROURK STORE, Shallotte:**  
**FEBRUARY 15, 1958 — FEBRUARY 22, 1958,**  
**MARCH 1, 1958 — MARCH 8, 1958**

The Registrar will have the Books at her home every day, and will upon request in person, Register the names of Eligible Applicants.
