Auto Accident Injuries

By DR. ROGER W. PRICE

Most auto insurance policies provide for Chiropractic treatment for disabilities sustained in collisions or otherwise in an automobile. Chiropractic is particularly effective in the treatment of "Whip-lash" and other back and neck injuries which are often the result of an auto accident.

A "Whip-lash injury" usually results from a blow on the neck or head or from a sudden jerk, such as would happen from having your car struck from behind. Consult your Modern Chiropractor for "Whip-lash" and other allied shoulder and back injuries—the doctor who has made a special study of the spine, joints, and muscles and nervous system.
