Record Prices Being Paid For Weed Offerings

The Whiteville tobacco market took a breather Monday in observance of the annual Labor Day holiday. For the first 22 selling days the market has set new poundage and price records as compared to previous seasons. Already 24,717,044 pounds have been sold for a season's average of \$64.43 which brought in \$15,924,687 to tobacco farmers. For the same comparable period for 1960 sales, 22,289,762 pounds was sold for a \$61.09 average or \$13,617,919 total money. Full sales are expected the rest of this week with warehousemen expecting even better quality than last week. George Gold, sales supervisor said, "Buying companies have had a chance to clean up and ship out their overflowing warehouses that were filled from the full sales of the past two weeks. I expect an even higher average to be recorded as we begin the fifth selling week. "Both quality and price was off slightly the latter part of last week but that was to be expected as farmers generally sold their off-quality tobacco. I expect a better grade of tobacco selling at record prices on the floors tomorrow and lasting through the week."

Church Census For Southport Planned Sunday

The Members Of Protestant Churches Cooperating In Collecting Information For Future Use

Southport's four Protestant churches will conduct a Family Church Survey this Sunday afternoon and survey-takers will begin their canvass of the city promptly at 3 o'clock in an effort to determine the religious affiliation of every white citizen of the city. In announcing last-minute details of the survey, the ministers requested that all persons who have volunteered to help with the census meet at the Southport Baptist Church promptly at 1:45 Sunday afternoon. A briefing period, in which workers will be instructed in the mechanics of the survey, will be held at that time. Appearing elsewhere in the State Port Pilot today is a facsimile of the census blank which will be used Sunday afternoon. Each family is urged to tear out this sample blank from the newspaper, fill it out with accurate information, and attach it to the front door for the survey Sunday. In this way, less time will be consumed by the surveyors, and more accurate information can be obtained. The Rev. Mark Owens, pastor of Southport Baptist Church, remarked this morning, "We hope each family in town will help us by filling out the blank ahead of time. If this is done, then no one will have to call in the individual homes, and other activities planned for Sunday afternoon will not be interrupted because of the survey." The Rev. Mr. Owens is serving as chairman of the survey. Another spokesman for the local

Bookmobile Back In County Budget

The Commissioners Announce Restoration Of This Service And Continued Civil Defense Support

Members of the board of county commissioners voted Monday to continue payments of \$200 per month for the support of the Brunswick County Bookmobile and the sum of \$150 per month for Civil Defense. These payments must come from non-advolourm tax sources, but after closer study of budget figures, the commissioners decided that they would be able to squeeze in these two items and pay for them out of intangible taxes and from fees for services. There had been a general protest against discontinuation of the bookmobile, which had developed a widespread popularity throughout Brunswick county. In making the announcement of the board's decision, Chairman F. H. Swain said, "There was not a member of the board who wanted to cut out the bookmobile. We just had to be sure we could find a legal source for payment." This same attitude apparently prevailed with regard to the Civil Defense program, particularly in view of the present international situation. The commissioners called attention to that fact that some information regarding budgeted capital improvements for the schools was incomplete, and specified that the sum of \$8,500 has been set up in the school fund for restrooms at Union High School (not at Lincoln High School as reported last week); \$500 for renovation of a wooden building at Union; and \$1,000 for renovation of a wooden

Progress Report For City Made By Pickerrell

New Sign Erected At City Limits Is Colorful Addition; Paving Projects Recently Completed

Literally highlighting a cycle of city improvements recently conducted and completed, stands a huge sign on Howe Street in Southport, welcoming vacationists, tourists, homeseekers and industry alike. Built by the city and situated on city-owned property, the sign is something special. The newcomer finds an 8x12 foot structure, fixed between rustic pine-framing with a brown background, superimposed upon which is a stretch of blue sky, cloud and water and a likeness of the famed Bald Head Island lighthouse, long a landmark in lower Brunswick. C. D. Pickerrell, Southport city manager, related with quiet pride that "not only was the sign a purely local effort, but the art work too, was created by Southport artists, Mrs. Bette Leggett and Waters Thompson." The colorful sign is floodlighted by night, and an electric beam emanates from the tower of the lighthouse, to swing in realistic fashion. Among other brand new city improvements are seats built on the city dock. These are permanent benches, and were installed primarily for the benefit of visitors and residents who like to spend a pleasant hour or two down on the Cape Fear, watching the ships and boats. The city has also just completed resurfacing and extension pavement around the courthouse; while Nash Street, between Atlantic and Howe has been resurfaced. A block of street from the River Road to the Southport Presbyterian Church has been hard surfaced and Pickerrell revealed that an alley on Bowery Hill has also been paved. A little further afield, the work

Shallotte JC's Sponsor Races

Go-Kart Extravaganza Scheduled For Shallotte Sunday, September 17

Members of the Shallotte Jaycees are sponsoring a mammoth Go-Kart race at the Shallotte Raceway on Sunday afternoon, September 17. Spokesmen said this week that between forty and fifty entries are expected. The objective of this Jaycee promotion is to raise funds to help build a cottage at Boys Home at Lake Waccamaw, and gate prizes will be offered as added incentive for advanced ticket sales. Thurston Mintz, one of the promoters of the Shallotte Raceway, says that there is a growing interest in Go-Kart racing. He and his partners have held several events over the Shallotte track this summer, and good crowds have attended. The track is located near the Prison Camp site. "I hope that by next summer there will be enough Go-Karts in this area that we can hold weekly races. If we can light our track and can put on a weekly show, we will be adding another tourist attraction to our area."

TIME and TIDE

The best news on the front page of The Pilot for September 9, 1936, was that the late Dr. J. Arthur Doshier had been elected to American College of Physicians and Surgeons. This is the highest degree of recognition which may come to a member of the medical profession. A vessel manned by personnel from the U. S. Bureau of Fisheries was tagging shrimp in local waters with the object of being able to check on migratory habits. The men's singles were being run off in Southport tennis tournament which had stretched over a period of several weeks, with Fred Willing having defeated Carey Reece in one of the early upsets. Bad weather had interrupted Labor Day weekend fishing; the editor had a stirring piece about the benefits of having electric lights in homes, and expressed the hope that lines soon would run the full length of Highway No. 17 through the county. School had opened for the 1941 fall term, and The Pilot for the week of September 10 reported that a vocational agriculture department had been added for the first time at Shallotte. Otto Hickman had been named Chief of Police for Southport, succeeding Herbert Rogers in this role. Twenty years ago it was possible to know almost all the boys and girls in the county who were going off to college. Some of them enrolling that fall included: Victoria Lancaster and Jose-
