Miss Judy Velma Murphy Becomes Bride Of James Leonard Konkle

Miss Judy Velma Murphy became the bride of Mr. James Leonard Konkle in a simple ceremony performed at the home of her parents at Yaupon Beach at 2 o'clock in the afternoon on Sunday, December 17.
The Rev. G. Scott Turner officiated.

The bride wore a white brocade street-length dress with long sleeves and carried a white Bible covered with an orchid and white and silver ribbon.

Her only attendant was her sister, Barbara Murphy, maid-of-honor. She wore a street-length, long-sleeved dress of pink velveteen and wore a pink pillbox hat. She carried a bouquet of small pink carnations, tied with pink ribbon.

The bride was given in marriage by her father. Serving as best man was Ted Konkle of Fort Devens, Mass.

The bride's mother wore a blue wood jersey dress and her flowers were blue carnations. The mother of the groom wore a suit of lavender and her flowers were of matching color.

The bride is the daughter of Mr. and Mrs. C. E. Murphy of Yaupon Beach. She graduated from Jamestown High School and attended East Carolina College at Greenville for two years. The groom is the son of Mr. and Mrs. William A. Konkle of High Point. He graduated from Jamestown High School and from Riddle Aeronautical Institute, Miami, Fla.

The couple will make their home in Wayne, Mich.

Many superstitions existed about bringing in the holly before Christmas. In Wales, if it was brought in before Christmas Eve, it was sure to cause family quarrels throughout the year. The type of holly brought into the household determined who was to dominate during the year. If the holly was smooth, the wife was in command; if prickly, the husband governed.

Infusions, decorations and fomentations of holly were used for a wide assortment of human disorders. In England, a tea of holly bark was a cure for the cough. In France, a decoration of leaves and bark was considered equal to quinine in the treatment of intermittent fever. A tea of holly leaves was believed to be a cure of measles by North Americans.

The legend has it in Brittany that when Christ was bearing His cross, a small bird attempted to relieve His suffering by plucking thorns from His brow. The bird's breast became strained with blood and was known ever after as Robin Redbreast.

To this day in England and Germany, it is considered unlucky to step on a holly berry, a favorite food of the robin, in recognition of the bird's charitable act.

Early Christians believed that holly was used to make the crown of thorns for the crucifixion. The plant was then called "righteous branch" or thorn of Christ, for the red berries supposedly symbolized the drops of blood on Christ's brow.

Other infusions, decorations and fomentations of leaves, berries, bark, or combinations, were used for many other human ailments—whoooping cough, chilblains, tooth ache, kidney ailments and as stimulants for the nerves and brain.
I give credit to the American Horticultural Society for much of the information used. It was taken from a Special Issue of the National Horticultural Magazine entitled "Handbook of Hollies" and compiled by Harry Denlinger. BURSITIS
By DR. ROGER W. PRICE
The bursa is a sack or pouch around a joint. Bursitis is an inflammation of the bursa. It may be acute, chronic or traumatic. In any form there will be lack of movement of the affected parts. The chronic form will have a calcium deposit in the bursa which has been gradually deposited over a period of time due to prolonged irritation of the bursa.
Over the years, Chiropractic has offered the most logical solution for correcting Bursitis. It has meant the difference between a life of freedom or suffering and pain. Consult your Modern Chiropractor for Bursitis—the doctor who has specialized in the study of the spine, joints and nervous system.
