IVY HIGH

For Board of Education

I have no political ambitions which extend beyond my nomination for the Board of Education from the Southport School District.

My only purpose for seeking nomination to this post is to improve our schools in Brunswick county and to help bring about a closer feeling of cooperation and confidence between the Board of Education and the other citizens and taxpayers. I do not propose to disrupt, but to try to help strengthen our educational program. No person now employed by the Brunswick County Board of Education and who is qualified for and is doing a good job in his present position, need have any fear of being fired because of my efforts.

Nervous Exhaustion

By DR. ROGER W. PRICE

Neurasthenia is commonly called nervous exhaustion. It is a condition of the nervous system characterized by physical or mental inefficiency.

Neurasthenia frequently follows overwork, worry and prolonged mental strain. From the beginning there are headaches, insomnia, inability to concentrate and irritability or depression.

Many patients have a feeling of cranial constriction similar to that caused by wearing of a skullcap or hat band; others complain of pressure upon the top of the head. Rest does not overcome physical fatigue as in most diseases; hence patients awaken in the morning exhausted. Modern Chiropractors are trained to correct nerve conditions, and in so doing health is restored to normal.

Telephone Talk

by H. F. KINCAID Your Telephone Manager

MAY marks the Centennial anniversary of the establishment of the United States Department of Agriculture. On May 15, 1862, President Lincoln signed it into being. Since then, agriculture has compiled one of the nation's most impressive production records. In 1862, one farmer produced food and fiber for five people. Today, he produces enough for 26! Result: now, more than 90 per cent of our people have no worries about enough food. Also, the tremendous strength of our nation today depends heavily on the unequalled productivity of the American farmer. And, of course, as both producer and consumer, his contribution has been important in helping America achieve its high standard of living. I, for one, am happy to join in this Centennial salute to our farmers... and say "thanks" for the part they have done in the development of our nation.

A. H. (Sonny) Gainey, Jr. For Representative

As the Democratic Primary election draws near, I wish to again place before the people of Brunswick County my position as a candidate for the North Carolina House of Representatives.

I was born and reared at Leland, where I now live with my wife and three children. I graduated from Leland High School, and thereafter attended Campbell College, Wilmington Junior College, Wake Forest College, and Wake Forest College School of Law from which I graduated in 1959; I also served in the United States Army during the Korean War. For the past three years I have been practicing law in Southport. I am presently serving as Solicitor of the Recorder's Court and have served in this capacity for nearly two years.

My platform is, and will be, dictated by the thoughts and best interests of the majority of our people. Thoughts and convictions which are personal to me shall always be subject to the wishes of the majority, and if nominated and elected my actions in the Legislature shall reflect the wishes and desires of the majority. This is only manner in which a true democratic form of government can function.

It is my desire to see what can be accomplished by a legislator whose only interest is to make his County a better place in which its people can live, work, and rear their families. That is my sole reason and purpose in becoming a candidate, and if nominated and elected I am dedicated to that task.

It is my belief that a vast majority of our citizens exercise their right to vote in as conscientious a manner as possible. This is sometimes made difficult by rosy promises, false issues, and social and economic pressures which are injected into the campaign. However, notwithstanding these factors, we generally try to vote for and support the candidate we think to be most qualified for the office which he seeks. A candidate is entitled to this consideration and none other.

As has been said by someone else, I repose great confidence in the sober thinking of our people. I now rest my candidacy upon it.

Your Vote and Active Support In Behalf Of My Candidacy Will Be Greatly Appreciated.
