

At Boiling Spring Lake

This big string of fish came out of Boiling Spring Lake one afternoon last week when an upstate lot-owner pulled in this catch while fishing from the highway bridge.

Social Security Changes Listed

A recent change in the social security law has made hundreds of farm landlords eligible for benefits although they do not materially participate in the actual operation of their farms.

Under this new provision, a farm landlord may get social security credit for his net income from a farm he owns even if his participation in the operation of the farm is through an agent or an employee.

Formerly, a farm landlord had to take a personal part in the actual operation or management of the farm in order to have his income from the farm count for social security.

Your local social security district office will be glad to answer any questions you might have about the recent change in the law. If you can't come in, write or telephone asking for a copy of booklet OASI-33d, which explains "material participation" in detail.

R **How Important Is Price?**

Everybody loves a bargain, but some can be very annoying. What good does it do to get a prescription filled far from your pharmacy for a possible saving, if you can't get it refilled at night or on a holiday when you need more?

If you are a "smart" buyer you may get a few less-leaders for less, but pharmacy purchases are not big money items like a television or a stove. Is the few cents you might save worth the trouble?

YOUR DOCTOR CAN PHONE US when you need a medicine. Pick up your prescription if shopping nearby, or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound yours?
