Barry Goldwater Highly Critical In Fayetteville

Interview With Candidate For Republican Presidential Nomination Brings Campaign State-

By WILLIAM ALLEN

Arizona Senator Barry Goldwater called the Democratic Administration's plans to combat poverty an effort to divided Americans into classes while in Fayetteville Saturday.

"If anybody has done anything to put people against people in this country, it has been the Democratic party over the past 30 years,' Senator Goldwater declared.

He said the program was similar to the ones of President Franklin D. Roosevelt which "divided the people and pigeon-holed them."

Senator Goldwater's answers came in response' to newsmens questions during a press conference in Fayetteville Saturday morning. President Lynden Johnson proposed to spend some \$1 billion dollars over the next three years to fight poverty in the United

"I think its a political gim-mick," Senator Goldwater declared. "It is an attempt to divide Americans into classes

"The Democratic party tried to cater to farmers and almost wrecked them. They tried to cater to small business men and the same thing happened."

Senator Goldwater said the answer to the poverty problem lies in the free enterprise system. "You have to encourage people to invest their money to create new jobs,' he continued.

The Democratic party has not provided the neccessary jobs for the people, Senator Goldwater charged. "I don't believe we have a Democrat in the administration who really understands the free enterprise system in America," he

Senator Goldwater, the leading contender for the Republican pres idential nomination, visited in Kinston and Fayetteville Friday and Saturday. This was his first trip into the South since he announced he would be a candidate for the nation's highest office earlfer this month.

Senator Goldwater predicted that the Republican party would make gains in the South in 1964. "But any Republican who says flatly that he can carry the South is not

He said President Johnson's elevation to the White House had not had much effect on the Republican party's chances to win in the South. "Johnson will have to turn away from the South and look to the North for votes," he observed. "And we never know whether he is from the South, West North or East. It just depends on where he is at the time.'

Senator Goldwater challenged anyone to call President Johnson a conservative. "He is not a conservative by any stretch of the imagination," he declared. "...is voting record shows him to be in the same class as Hubert Humphrey." (an ultra-liberal).

He gave the young people much of the credit for the rise of the Republican party in the South. "The young people have developed Continued On Page Four

Members Express Intention To Retain Supervisory Facility At Southport

The State Ports Authority recommended tight control over the proposed Small Boat Harbor at Southport at a meeting in Raleigh Thursday.

The SPA proposed a management plan similar to the ones used at Morehead City and Wilmington. Under the plan, the facilities Banquet Session Held By are controlled by the SPA which has its own operations manager. "We want to maintain control," SPA Member E. N. Richards of Raleigh said. "We should Thursday evening, the following do the appointing. If we appoint officers of Pythagoras Lodge 249 them we will have control of for the year 1964 were installed:

Southport High **School Starts** Using Buildings

Temporary Classrooms Will Afford Relief For Overcrowded Conditions At

The first of three new temporary classrooms opened at Southport High School this week and will help to relieve overcrowded conditions, according to Principal Willard

The building was constructed by the Board of Education and is located at the side of the school. Two more imilar buildings are under construction at the present time and should be ready for student occupation in late February. Each building will house one normal size class.

As a result of opening the first building, several classes have changed locations. Mrs. Ruth Hood's seventh and eighth grade students have moved into the building from the Marineology Building. Then Preston Bryant's marineology class transferred from the diesel engine room to the Marineology building.

When the other two building are completed, five classes will be able to move from the auditorium to classrooms, and the elementary library will be opened for student
