### Where Boat Hit The Pier

CRASH — This is the fishing pier at Long Beach, and in the right foreground is a section which was damaged last week when a shrimp boat got off course and plowed into the structure. From the looks of things at the stage of tide when this picture was taken, it is difficult to understand how the ship hit the dock without first going aground. (Shannon Photo)

## Seals Funds **Are Mounting** Says Chairman

According to Judge Raymond B. Mallard, 1966 Christmas Seal Sale chairman, the total amount received to date is \$19,162. With many regular contributors still unheard from, Brunswick county's share in the support of the year-round program of tuberculosis control and respiratory diseases is \$844.25, close to last year's final total of \$865.00. Miss Luch Nash, executive director of the SENC Tubercu-

losis Association, said the office is still holding a number of envelopes in which cash contributions have been received with no name to identify the donor. "We want to know", she said, "to whom the credit should go, as a permanent file is kept in the name of everyone to whom the Seals are mailed. That is the reason we are still sending out tracers or reminders -- they are not intended as duns -- but it is the only way we can know who these

anonymous contributors are," Judge Mallard expressed his thanks to the thousands of volunteer hours contributed by both individuals and groups in preparing the letters and in helping to count the receipts and check the contributors' names.

## Landscaping At Brunswick Town

A landscaping project is underway at the Visitors Center-Museum at Brunswick Town today as members of the three garden clubs in Southport combine their efforts with those of the staff at the historic site to landscape the grounds about the new building.

Another important participant in this effort is Mrs. Ira Hines of Carolina Beach, who is donating some plants to be used in this project.

One of the contributions of the garden clubs has been the purchase of brick for laying walks extending from the parking lot to the building. Each of the three clubs also has contributed to a fund for the purchase and planting of oak trees and crepe myrtles in the parking lot area.

All of this is being done in preparation for the dedication of the building in ceremonies that have been scheduled for April 2. Governor Dan K. Moore has been invited to be the speaker on that

Meanwhile, work is continuing on historic displays which will be on exhibit in the building.

## Sunny Point Has New Man

Captain John D. Puckett, of Hartselle, Alabama, has recent-ly arrived for assignment and duty at the Military Ocean Ter-

minal, Sunny Point. Captain Puckett attended Florence State College in Florence. Alabama, graduating in 1964 with a Bachelor of Science Degree, and as a Distinguished Military Graduate, was offered, and accepted, a commission in the reg-

ular Army. The new officer came on active duty in June 1964 and since that time has performed duty at Fort Jackson, S. C., Fort Sill, Oklahoma, Fort Benning, Ga., with the 25th Infantry Division in Ha-

P. WILLETTS

## C. P. Willetts Rites Are Held

BOLIVIA-- Calvin Willetts, 71, founder of Wil-letts and Sons Motor Sales in Bolivia and a former Brunswick County sheriff, died in Cape Fear Memorial Hospital in Wilmington, Sunday night, following a heart attack.

Mr. Willetts founded the Willetts and Sons Motor Sales, local Ford agency in 1934. He had been active in its operation since. He served as sheriff of Brunswick County during 1942-46. He was an active deacon at Mill Creek Baptist Church, a charter member of the Lions Club, a member of the American Legion and a World War I veter-

He was a Brunswick County native and the son of the late Walter W. and Frances Willetts. Final rites were held Tuesday at 3 p. m. at Mill Creek Baptist Church by the Rev. Clyde Francis, with burial in Willetts Ceme-

## Disease Of Heart Strike **Many Victims**

Diseases of the heart and cir-culation will in 1967 take more lives here than all other diseases combined, it was forecast this week by Mrs. Freeman Hewett, county Chairman of the 1967 Heart Fund, which is to be conducted in Brunswick county throughout February.

Mrs. Hewett based her prediction on the fact that the cardiovascular disease toll in Brunswick county was 92 in the last year for which statistics are available, as against a total of 121 for all other diseases and causes. The patterns, she said, has been a consistent one over the past several years.
Other leading causes of death

in the county for the last reportable year were given as fol-lows: Cancer 20; accidents 12; pneumonia and influenza 5, and diabetes 2.

Mrs. Hewett pointed out that in the nation there are an estimated 14,600,000 adults suffering from one or more types of heart disease, and another 6,900,000 suffering from high blood pressure, the total of the known victims being about 21,500,000. Additionally, she said, there are approximately 13,000,000 more persons with "suspect" heart

How is the Heart Fund dollar spent? Mrs. Hewett announced that single copies of the annual reports of the American Heart Association, "More Than Ever Before," and The North Carolina Heart Association, "War Against Heart Disease", are available from the state heart group, and may be ordered by writing a post-

The local heart group, which is affiliated with the state and na-tional groups, will soon be con-ducting the 1966 Heart Fund campaign in Brunswick County.

## Start Sign Up For Program

The signup for the 1967 cotton, feed grain and wheat programs will begin Monday, and will continue through March 3, Ralph Price, ASC Office Manager said this week. To be eligible for price support or diversion payunder these programs farmers must sign up to participate during this period. Some of the program provisions fol-

COTTON: Producers may divert 12.5 percent of the allotment for payment and plant no cotton or they may divert from 12.5 percent to 35 percent of the farm's allotment and plant the remaining allotment. Diversion payment will be made on the acres diverted and price support on the acres planted not exceed the domestic allotment. Farms with allotments of 10 acres or less that plant some cotton will receive double diversion benefits.

FEED GRAIN: The minimum diversion for participation is 20 percent of the farm's base. Farmers with bases of 25 acres or less may divert their entire base. There will be no diversion payment on farms with bases over 25 acres unless the producers elect to divert 25 acres
