Increase In

The board of trustees for Dosh-Memorial Hospital at their egular monthly meeting in February approved an increase in rcom rates effective March 1. This increase is due to the steady climb of operational costs and charges per day will be: Private \$18.50; Semi-private \$15.50; 3 bed ward \$14.; and bed ward \$11.50.

Hospital Rate

The board approved a write-off of \$34,000 of uncollectible accounts for the hospital. This huge amount has accumulated over the years through non-paying patients for in-patient and out-patient service. This is only a small portion of a total of \$125,000 that will eventually be written off as uncollectible. Every reasonable effort has been made to collect these accounts, but without success.

There are many reasons as to why the hospital was unable to collect, such as patient unable to pay, patient would not pay, hospitalization policy held by patient denied for one reason or another, and various other reasons. Due to these facts, a more stringent collection and deposit requirement will be enforced. The board of trustees and the Administrator feel the hope for continued good hospital service to the community lies in the settling of all accounts as they become due.

Time And Tide

On the front page of The Pilot for March 3, 1937, was the announcement that the Cape Fear Pilots Association had purchased a new pilot boat and had christened her the "R. R. Stone." She replaced the old "D. H. Penton." A public meeting was slated to be held here the following day on the question of a yacht basin for

The Carolina Puppeteers had made a tour of Brunswick County Schools, teaching their object lesson of oral hygiene; prospects for an unusually early spring had been literally nipped in the bud when sub-freezing temperatures followed a few days of kidding around with warm weather during the month of February; and Waccamaw's old log gym was to be the site for the Brunswick County Basketball Tournament starting the next day.

There was a prophetic headline on the front page of The Pilot for March 4, 1942; "State Begins Preparing for Rationing of Sugar." Registration was to be conducted through the schools, the story said. sub-station of the Southport Post office was being set up at the Naval Section Base at Fort Caswell; Highway Patrolman James Smith had discussed driving safety for school bus drivers at a meeting of the Brunswick Schoolmasters Club; and there was an ominous front page column: "The War At A Glance."

During the first week in March back in 1947 Capt, Rudy Gray, a Brunswick county native, was in the international news spotlight with his ship, the SS Martin Behrman, being held by the Dutch in their row with Indonesia. February of that year had earned the distinction of being a cold month, with the mercury hitting the 15degree mark one morning.

The Shallotte Lions Club was slated to receive its charter at a special meeting upcoming; Odell Bennett had resigned as Chairman of the Brunswick AAA Committee; and the Southport boys basketball squad, Brunswick County Champions, appeared in a front page

Reports First Week's Activity In Legislature

By ODELL WILLIAMSON

Last week I mentioned that members of the General Assembly had received copies of the budget books containing expenditures recommended by the Advisory Budget Commission for the next biennium.

Now that I have had a little time to study the books, I find that I am happy about some of the recommendations, but disappointed that certain other items which I had thought might be recommended had not been requested and, therefore, were not

mentioned in the budget One of the items that I am happy about is a \$75,000 appropriation for additions to buildings at the Whiteville Forestry headquarters. I will work to see that this item remains in the budget. The money will be spent for a 2,088-square-foot addition to the equipment repair shop, a new 6,720-square-foot open-type equipment storage shelter, and a new 2,176-square-foot hanger to take care of two air-

I was disappointed to learn that the Advisory Budget Commission had not even been asked to allocate \$190,000 for covering part of the boat slips at the small boat harbor in Southport.

This past Wednesday, the di-rector of the State Ports Authority, Mr. Davis, appeared before the joint Senate-House appropriations committee, of which I am a member, to request funds for the ports of Wilmington and Morehead City over and above the amounts recommended by the Ad-visory Budget Commission. During his appearance, Mr. Davis--representing the Ports Authority -- again did not ask for the \$190,-

In answer to questions about his reasons for not requesting the money from the Advisory Budget Commission, Mr. Davis said that the Ports Authority has in mind a plan to finance improvements at Southport through the (Continued on Page 4)

Closing Work

There are only two days left in the program being conducted by the Employment Security Commission's Mobile Team in Brunswick County. Offices of the Mobile Unit will close at 5:30 p.m. Friday to end the Brunswick County Smaller Communities Program. The effort, sponsored by the Brunswick Resources Development Commission, began on January 16 and has attempted to provide complete Employment Services to the residents of the county and to compile information for a Manpower Resources Report, to be used in conjunction with efforts to attract new industry to Bruns-

wick county. Survey forms to employed workers in the county were distributed last week and it is very important to the effort that they be returned at once.

There are two offices open for the final week, the Southport office, in the old Randy's Sandwich Shop, and the Trailer Unit, located at the high school in Leland. Both offices are open 8:30 a.m. until 5:30 p.m.
