Dogwood Tree Planted

Members of the Woodbine Garden Club presented a dogwood tree to the Southport-Brunswick County Library last week and planted it with appropriate ceremonies in front of the library building on Moore St. Shown, left to right, are Mrs. Howard Loanhardt, Mrs. William Norman, City Manager C. D. Pickerrell, Mrs. Lillian Riley, Mrs Pickerrell, Mrs. L. G. Brown, Mrs. Kenneth Pierpont and Mrs. James

### Official Says Company Will Obey All Rules

Discharge from the proposed nuclear-powered generating plant near Southport is expected to be routed into the sea rather than the Cape Fear River, a State Senate committee studying the danger of thermal pollution was told Wednesday.

"It is our intention to cooperate in every way possible to protect the aquatic life in the area," Vice President-General Counsel Reid Thompson of Carolina Power and Light Co. told the Senate Conservation

and Development Committee. "No decision has been reached, but there is a strong likelihood that we will decide to return the water to the Atlantic Ocean rather than into the river," Thompson said.

The committee chairman, Sen. John Burney (D-New Hanover), noted that piping of the water into the ocean would be more expensive than piping it into the Cape Fear. He asked Thompson why the ocean is being selected. "It's necessary to avoid thermal pollution-just what we're talking about," Thompson replied.

Federal and State standards on Thompson said. "We hope to have to have a decision in 30 days, or perhaps six weeks, but it is very likely that we will select the ocean.

Senator Burney, in cooperation with Rep. Norwood Bryan (D-Cumberland), is conducting hearings to determine whether legislation is needed to control pollution at the Southport site and whether the heated water from the plant (Continued On Page Four)

Brunswick county student and teacher to attend the "Youth Conference on the Atom" in Chicago this November is the top prize in a contest announced by George F. Williams, Brunswick County Superintendent of Schools.

The contest, sponsored by Carolina Power and Light Company, is open to all county 10th and 11th grade science students. To compete, the student must write an essay on the subject "How the Atom Benefits Mankind."

Winners named by science teachers at each school will be invited, along with their teachers, to a supper May 6 for the final judging by college faculty members. At the supper, the three top essayists will be of World War I, will meet required to answer questions Saturday at the Agriculture about their essays.

The winner will be given the Chicago trip for himself and his teacher. The first runner-up will be given a \$50 savings bond, and the second runner-up will be given a \$25 savings bond.

The conference is a three-day scientific program sponsored by the investor-owned utilities. The event is attended by about 700 students and teachers from throughout the nation.

For the past nine years CP&L has chosen its delegates by means of the state science fair program in North and South Carolina. This year the power company decided to pick students from Brunswick county, where it hopes to build a nuclear plant, and Darlington County, S.C., where it has a

nuclear unit under construction. The teachers of the winning essayists will accompany their students to the conference along with Steve Meehan, a CP&L

An all-expense paid trip for a representative. In addition to the conference there is time scheduled for sightseeing, a meal at an exotic restaurant, shopping and a show.

## **Tobacco Meet Monday Night**

There will be a tobacco production meeting in the County Extension Office in Supply at 7:30 p.m. Monday.

The purpose of this meeting is to discuss new practices in growing tobacco, such as flea beetle control with systemics, method for slowing down transpiration of plants and transplanting time and changes in methods for sucker control.

There will also be a discussion

of fertilization that will apply to

all of the field crops. The new soil sample report will be explained and a method of keeping a history of fertility levels for each field on the farm. Archie F. Martin, County Extension Chairman, said this week, "It is becoming more difficult each year to make a profit from farming as the prices the farmer pays for production costs are going up and prices he receives for his products are not increasing at the same rate. Consequently, the farmer is and has been for several years in a price-cost squeeze. It becomes more important every year that the farmer conduct his farming operation as a business and not leave too many things to chance

"Tobacco brings \$3 to \$4 million to Brunswick county (Continued On Page Four)

in hopes that mother nature will

assure him of good crops.

### **Grover Gore** Chairman Of **Cancer Drive**

Southport Attorney Grover A. Gore has been named chairman of the Brunswick County Cancer Crusade for 1969 which will begin April 1.

Gore is a 37 year old native of Shallotte, and is the son of Mr. and Mrs. Grover R. Gore. He is a 1949 graduate of Shallotte High School, a graduate of N.C. State University, and a graduate of the Wake Forest University School

In accepting the leadership for the Cancer Fund Drive, Gore said: "Cancer is one of the most mysterious and dreaded diseases to ever attack mankind. There is hardly a family in Brunswick County that has not been affected by this disease in some way. This Cancer Fund campaign gives each of us an ideal opportunity to help find a cure for this phantom disease."

He is a member of the State, local and American Bar Association, Phi Delta Phi Legal Fraternity, North Carolina Academy of Trial Lawyers, the Advisory Board of the Southeastern Economic Development Commission, Board of Directors and Treasurer of Brunswick County Red Cross Association, and a member of the State Environmental Health Task Force.

He is Town Attorney for Long Beach and Sunset Beach. He has recently been appointed by the North Carolina Board of Air and Water Resources Commission to the Beach Erosion and Projects Committee, and as a delegate to the National Rivers and Harbor Congress which will convene in Washington, D.C., in June of this

He is Chairman of the Board of Deacons of the Southport Presbyterian Church, and is a member of Pythagoras Lodge AF and AM No. 249. Prior to returning home to practice law, he was General Counsel and Secretary for several years to a corporation located in Rocky

He is married to the former Marianne Noel Boyd, daughter of Mr. and Mrs. John Franklin Boyd, Jr., of Cambridge Road, Charlotte. They have one child, a daughter six years of age.

Chairman Gore urges citizens to "buy your loved one an Easter lily and help the Brunswick County Cancer Society. Call 457-3016 or 457-5302 and place your order

Time And Tide

It was March 8, 1939, and Bald Head Island was to remain in that

state. Owner Frank Sherrill had stated that the island would not be

furnished with a highway, would not become a National Park, and

that he had plans for private development. Two out of three. The

front page that week featured a picture of the old light tower at Oak

Island which had been featured recently by a national news service.

Freshwater fisherman were enlightened on some of the State

regulations of their sport; two northern sportswrighters were coming

to the area to enjoy some of the early season saltwater angling; and

the basketball tournament was to get underway the next day at

One of the more interesting stories that week told again of the

'Wandering Bell-Buoy". The incident had started in 1918 when the

Old Position buoy, "2A FP" had broken its moorings on Frying Pan

Shoals. The buoy errant had then proceeded into the Gulf Stream

and had crossed the Atlantic, causing no little terror and much

consternation to ships which had encountered it on its voyage. The

buoy tolled its last on the Irish shore near Skibbereen, County Cork,

and was then impounded by Irish customs officials. Last report had

> If you are interested, come to the Friday night meeting.

A total of nine contestants will take part in the Miss Brunswick pageant which will be staged March 29 at Shallotte High School.

The latest entrants are Mary Sue Everett of Leland and Thirv Elizabeth Lesh of Bolivia.

Miss Everett is the 18-year-old daughter of Mr. and Mrs. Robert W. Everett of Leland and is a graduate of Leland High School. She studied business at Cape Fear Tech. She stands 5-ft., 6-inches tall and weighs 120 lbs., has blond hair and blue eyes. She was chosen Miss Leland Raceway of 1968 and was voted Most Attractive member of her senior class at Leland. She models in her spare time. Her hobbies include basketball, water sports and playing the piano.

Miss Lesh is the daughter of Mr. and Mrs. Winfred Lesh. She is 18-years-old and is a senior at Bolivia High School where she is a member of the Beta Club, French Club, Science Club and the Annual Staff. She is an All-County basketball player and was named most valuable player. Her hobbies include dancing and singing. She has chosen a ballet routine for her talent participation in the pageant. She is 5-ft., 10-inches tall, weighs 130-lbs. and has blond hair and brown eyes.

### **School Plans** Set By Board

The Brunswick County Board of Education met Monday night and heard Superintendent George Williams review a letter from Dr. Craig Phillips, State Superintendent of Public Instruction, in which the board was advised that the State Board had approved the long range plans for school improvement for Brunswick County as submitted to the State Review Panel on February 28.

Such a plan calls for the construction of three consolidated high schools at an estimated cost of \$3,551,000.

These schools when completed would serve all students (Continued On Page Four)

### **County Leads** In Production Of Oysters

By Rep. ARTHUR W. WILLIAMSON

It is well known and has been established by scientific study that the oyster bottoms of Brunswick County are among the best found anywhere along the Southeast U.S. coast.

This represents an untapped potential which would benefit all of the people of our district, Brunswick and Columbus counties, and all of Southeastern North Carolina.

I believe that if properly supported and encouraged, then given promotion, the oyster beds of Brunswick County can be and should be developed into one of the richest and most beneficial resources of the state. There is a great demand for good oysters, and the prices are good.

The state is assisting in a program of oyster shell planting which I feel should be continued and expanded.

With Rep. R. C. Soles and the state's Fisheries Commissioner, Dr. Thomas Linton, I visited oystermen in Brunswick County this week and we had a very informative and interesting meeting at Calabash on Wednesday. It was pointed out that there is a \$42,000 state appropriation for planting oyster shells in Brunswick County waters during this season, March and April, and a request for \$83,500 for this purpose during the next two years. If possible I feel this

appropriation should be Already Brunswick County

because of its potential and (Continued On Page Four)

### Group Visits At Boys Home

On Saturday at 10, the Beta Bota Chapter of Alpha Delta Kappa visited Boys Home at Lake Waccamaw. The regular business meeting was held in the office of the gymnasium before touring the grounds and cottages. The sorority enjoyed luncheon

with the boys, Mr. McCray, and the house mother in one of the cottages. After lunch, Mr. McCray gave a very informative talk concerning the boys' welfare and their future. The sorority was very much impressed with the activities of the boys and the responsibilities they have in helping with the chores and upkeep of the home. These responsibilities are designed to make finer citizens of tomorrow. The sorority found Mr. McCray's statement true, "That-Boys Home is a home away from home."

Before leaving, the sorority presented the home with a \$50 check. Members present at the

meeting were: Dorothy Davis, Ruth Hood, Emily K. Sellers, Lila Hogg, Sarah B. Rogers, Brightie Holden, Virginia Winfree, Betty Ann Hewett, Ruth White, Claire Evans, Janice Gore, Clara Mae Russ.
