Bald Head Island Proudly Announces The Return of The Turn-of-the-Century Beach Cottage

THE COTTAGES

AT

With steep-pitched roots, rocking chair porches, cedar-shingle siding, and wooden shutters, these cottages embody the charm

of turn-of-the-century coastal North Carolina.

But to appreciate their real beauty and special character, one has to step back to a time when family beach cottages had a way of growing to accommodate a growing family. The result was a charming enclave of buildings sometimes attached to and sometimes near the principle residence.

Passed down from generation to generation, these beach cottages have become family heirlooms and a part of the lore and tradition of coastal North Carolina.

Today, Bald Head Island is reviving this American tradition with the introduction of The Cottages at Flora's Bluff, beach front cottages on the highest and arguably most historic oceanfront bluff in all of Brunswick County.

Each with its own special character. Each with a splendid view of, and boardwalk access to, Bald Head Island's South Beach. Each with the long roof overhangs and wide porches reminiscent of a time before the invention of air conditioning.

And each of four cottage designs - with a variety of floor plans to choose from - are surprisingly priced from \$160,000.

If you sense an undercurrent of pride and excitement, there's no mistaking it. In truth, we expect demand for The Cottages at Flora's Bluff to far exceed the limited availability.

If you think you may have an interest in previewing the site, the cottages or receiving more information - you are invited to call us toll free at your earliest opportunity.

Our passenger ferry terminal is in Southport at Indigo Plantation.
