

For Those Who Appreciate Nature

Turtle Creek

Oceanfront

by the Sea

Oak Island

Great care has been taken to preserve the natural setting at Turtle Creek by the Sea, a new oceanfront community for those who appreciate sweeping views of the ocean, twisted oaks and magnolias, freshwater streams and ponds. Our homesites are spacious (some are approximately one acre) and all have easy beach access. This is truly a unique opportunity for those who wish to build and live in harmony with nature.
