

The State Port Pilot Classifieds

ADVERTISING COST

Classified advertisement of 20 words or less published one time is \$3.50. Two insertions of the same advertisement is \$6.00 and three insertions \$8.00. Add \$1.50 for each subsequent insertion of the same advertisement. For each word over 20, add ten cents per word per insertion. There is no charge for advertisements offering free pets or notification that a lost item has been found.

CORRECTIONS

Advertisers should review their advertisement after the initial insertion so that necessary changes can be made. The newspaper will not make cost adjustments for errors that appear beyond the first week of publication. If a mistake is found, call 910-457-4568, e-mail pilot@southport.net or fax 910-457-9427.

PAYMENT

Advertisements mailed or brought to the newspaper office should be paid upon placement. Persons unsure how many times their advertisement will be published are expected to pay for three insertions; if the advertisement is discontinued earlier the unused balance will be refunded. The newspaper will bill for advertisements placed by telephone, e-mail or fax with a \$2.00 service charge. All advertisements in the personal, yard sale or child care categories must be paid in advance.

EDITOR'S NOTE

The State Port Pilot reserves the right to refuse a classified advertisement it considers to be of questionable taste. The publication of an advertisement is not an endorsement by the newspaper of the worthiness of the item or service being offered. Readers should be cautious of advertisements that lead to payment of money before items or services are provided, or those that require a toll telephone call.

How to write a good classified ad

1. Start with the item you are selling or the service you are offering. This makes it easier for the reader to locate your item or service. Be specific in which category you want your advertisement placed (see listings at right).
2. Do not try to include too many items in a single advertisement. Readers may see only the first item and overlook others that would receive more attention separately.
3. Check your spelling. Brand names are sometime unique and not known to the proofreader. Include your telephone number in case there are questions in the preparation of your advertisement.
4. Include the price of the item you are selling. Studies indicate more than half of classified ad readers do not respond to advertisements that do not include a price.
5. Keep abbreviations to a minimum. Make it easy for readers to understand what you are selling or offering.
6. Place yourself in the reader's position. Ask what you would like to know about the item for sale or the service offered. Include information such as brand name and other specific descriptions of an item.
