## Interesting Entertainments Being Given Free.

Much interest is being shown in this city over the series of free shows and entertaining talks given by the Advertiser of Payne's New Discovery Remedies.

A great deal of comment has appeared in most of the papers of the State concerning the big sales of these remedies and the remarkable cures they have effected and it seems that the success they have met with elsewhere will be repeated.

The advertiser has testimonials from hundreds of well known citizens of Charlotte, Salisbury, Greensboro and surrounding cities, showing that the remedies have made astounding cures where all other medicines had been tried and failed.

The advertiser has music, dances, jokes, and funny contests in his free, open air show every night at 8 o'clock.

He makes his headquarters during the day in the Asheboro Drug Store, where all are invited to meet him and see the testimonials and in some cases the very diseases of those who have taken Payne's Remedies.

There is no charge of any kind and all are welcome.

The advertiser is a man of means and shows his liberality by throwing out quarters, halves and even silver dollars for the boys to scramble for, besides giving money to the winner of the funny eating contests.

He intends also to give a handsome present to the most popular lady in the city, to be decided by votes.

Don't miss seeing and hearing him.

Court news will be published next week.

Judgment and Right Against Ignorance and Wrong.

Editor of the Bulletin,

Dear Sir:—In last week's issue I spoke of the "yellow peril," this week I wish to speak of why Japan has been so successful in all her battles, both land and sea.

It seems to be a general idea that there is and has been all along something wonderful or supernatural about the Japs. It has even been assigned to the great missionary work that has been done in Japan; notwithstanding the fact that Japan is still looked upon as yet in heathenism in many respects, especially so among the rulers of the army, while Russia is considered Christianized, with the Catholic church at the head of that great government; with millions of soldiers to fight, and has also tried to help Christianize Japan and China with her missionary work; (the occupation of Manchuria during the Boxer war is perhaps some cause of this war) like we are doing.

But where is the consistency? I would ask, in placing all this great achievement on missionary work and the bible, or even assign it to God, through providence in a superhuman manner. Do you think God would whip himself with the devil? A heathen with God on his side, whip out a Christian? I think not. In the first place the Japanese know they are fighting in a just cause and are satisfied that the God they worship will help them, and that gives to them the fighting quality. The Russians know they are wrong and that deprives them of the sticking quality. The Japs know how to fight. The Russians are neither drilled nor educated in any way to enable them to combat with skilled fighters. Japan is on the Lord's side, because she is fighting in an intelligent, enlightened, and a natural way, harmonizing with God's plans, while Russia is violating natural laws and giving Japan all chances to excel in every battle—a circumstance of judgment and right against ignorance and wrong. J. F. H.
