The South Passes New England. The intersting fact is developed by a bulletin on "Power Employed in Manufacturers', issued by the Census Bureau that the South out ranks ployed in manufacturers at the close 641,544 horse-power. To this amount nowhere is it more pernicious than steam engines contributed 10,828,111 horse-power, or 73.9 per cent; water-11.3 per cent.; electric power, owned or rented, 1,592,483 horse-power, or 10.9 per cent.; gas or gasoline engines 289,514 horse-power or 2 per cent.; horse-power or 1.9 per cent.

The important part of this report is that section showing how this power was distributed in geographical divisions. The Middle States ranked first in the amount of power, reporting 5,000,367 horse-power. The Central States were second with 4.077,third with 2,386,330; the New England States fourth with 2,254,264; the Pacific States fifth with 474,397. than New England. And just so long as we talk freedom of thought, and regret the lack of it in other lands, while we have a scant attention for the prophets of the living God whose minds are illumined by the glory of His truth, we are intellectually hypocrites. And no man may deny the count.

Then, too, we are moral hypocrites How shocked we are at the Mohammedan system of divorce, and the curse of opium to the integrity of Chinese civilization, and the vicious ustoms of English barroom, and the free-love of a certain sort of Socialsm! But how shocked are we over the "consecutive" polygamy and polyandry that exists under the oose sanctions of our legal systems? How shocked are we by the spectacle of our boys and girls, our men and women, deadened with drink; forced

Memphis, Tenn., Special. - With bands playing, children singing and enthusiastic men shouting the slogan of deep waterways, Memphis threw wide her gates Friday afternoon to President Roosevelt, a score of Governors and many other distinguished personages in the Mississippi valley

The President arrived on the United States steamer Mississippi shortly after 10 o'clock. The bluffs overlooking the river were packed with people, who gave the Chief Executive a warm welcome. As the steamer landed the whistles of all craft in the harbor were sounded.

When all had landed, the President was conducted to a carriage by Governor Patterson, of Tennessee, and Mayor Malone, of Memphis, and the most imposing parade ever given here was begun. The President was continuously cheered throughout the march. The city was a waving mass of color, not only along the line of life-time in order to glorify Almighty parade, but on many other streets as well. When the President's carriage turned into Main street he was saluted by a regiment of Confederate veterans, who thereafter acted as a body guard. The President rose and warmly greeted the warrors of a half century ago.

# A Bumper Wheat Crop.

To produce a "bumper" wheat crop, it is absolutely necessary that you supply to your land one or more of the three elements of plant food which your soil so badly needs: phosphoric acid, nitrogen (or ammonia) and potash. The liberal use of

(say 200 to 500 pounds to the acre) will meet this deficiency. You know the highest grades are always cheaper, as they produce greater yields. These fertilizers on account of the phosphoric acid they contain, promote the growth and development of the grain and hastens maturity; the nitrogen or ammonia of which they are a part, increases the growth of leaves and stalk and its potash gives strength to the stalk and assists in the development of the grain.

So use Virginia-Carolina Fertilizers and greatly "Increase your yields per acre." Don't buy any substitute brand, which some dealer may tell you "Is just as good." If he cannot supply you, write us direct for the goods and tell us your dealer's name.

THICKENS EARN MONEY If you give them help. you cannot spend years and dollars learning by exp rience, so you must buy the knowledge required by others. We offer this to you for only 25 cents. You want them to pay their own way even if you merely keep them as a diversion. In order to handle Fowls judiciously you must know something about them. To meet this want we are selling a book giving the experience of a practical poultry raiser for (Only 25c.) twenty-five years. It was written by a man who must all his mind and time, and money to making a success of Chickof a practical poultry raiser for (Only 25c.) twenty-five years. It was written by a man who put all his mind, and time, and money to making a success of Chicken raising—not as a pastime, but as a business—and if you will profit by his twenty-five years' work, you can save many Chicks annually, and make your Fowls earn dollars for you. The point is, that you must be sure to detect trouble in the Poultry Yard as soon as it appears, and know how to remedy it. This book will teach you. It tells how to detect and cure disease; to feel for eggs and also for fattening; which Fowls to save for bresding purposes; and everything, indeed, you should know on this subject to make it profitable. Seat posterid for twenty—are cents in stamps. BOOK PUBLISHING HOUSE, 12t Leonard St. New York City
