Don't Doubt.

When young Dr. Merle D' Aubigne was a student at Kiel, he was oppressed with doubts, and went to Klenken an old experienced teacher for help. The old man refused to answer them. saying, "Were I to rid you of these others would come. There is a shorter way of destroying them. Let Christ be to you really the Son of God, the Saviour, and his light will dispel the darkness and his spirit lead you into all truth."

A certain minister lived thirtyseven years without a certainty as to his spiritual safety. When dying, be asked: one who was present "What will you say of such an one who is going out of the world and can find no comfort?" "What will you say of Him," was the reply, who when going out of the world, eried, "My God, my God. why hast thou forsaken me?" This prompt reply administered consolation to the troubled spirit of his friend, who departed rejoicing in the Lord.

Food.

A great scientist has said we can put off "old age" if we can only nourish the body properly.

To do this the right kind of food, of course, is necessary. The body manufactures poisons in the stomach and intestines from certain kinds of food stuffs and unless sufficient of the right kind is used, the injurious elements overcome the good.

"My grandmother, 71 years old," writes a N. Y. lady, "had been an invalid for 18 years from what was called consumption of the stomach and bowels. The doctor had given her up to die. "I saw so much about Grape-Nuts

that I persuaded grandmother to try it. She could not keep anything on her stomach for more than a few min-

"She began Grape-Nuts with only a teaspoonful. As that did not distress her and as she could retain it, she took a little more until she could take all of four teaspoonfuls at a meal,

"Then she began to gain and grow strong and her trouble in the stomach was gone entirely. She got to enjoy good health for one so old, and we know Grape-Nuts saved her life.

"The doctor was astonished that instead of dying she got well, and without a drop of medicine after she began the Grape-Nuts." "There's a

Lincoln, Neb .- The State University senate adopted a rule forbidding young women students to wear hats in classrooms. . The order was made necessary by feminine headgear which had grown so large that it not only tested the capacity of the classrooms but interfered with recitations. Another rule adopted prohibits students indulging in shirt-tail parades or kidnaping class officers to break up social gatherings, on penalty of immediate expulsion.

Modesty is generally an evidence of worth, while presumption is almost invariably an evidence of shallowness or unreliability. If a man has but a small field, let him

cultivate it well; when it becomes too small for him others will perceive it; and he will be called to more extensive labors. A man who is always laboring to do good will succeed; while a man who is always seeking for place will fail. If one believes that he is in God's hands and engaged in God's work, why should he not so commit himself to God's will as to allow God to put him forward. Does he fear that God may neglect him and allow some one and Elixir of Senna is the only remedy of to supplant him? This is a most unworthy view of God, and ought never to be entertained by one who believes himself called of God and living in communion with Him.
