

# The Randolph Bulletin

PUBLISHED EVERY THURSDAY  
PRICE ONE DOLLAR A YEAR  
U. S. MAILS, Editor and Publisher.

Entered as second-class matter June 2nd, 1905, at the post office at Asheboro, N. C., under the act of Congress of March 3rd 1879.

And the baseball umpire is busy preparing himself for the summer slaughter.

March blizzards bring forth April showers, and you know what they do. So cheer up.

What is an ideal woman? The question is as near solution now as in Adam's time.

The organization of a coal trust makes things look mighty black for the consumer.

Things have grown worse for the kidnapping business since the Charley Ross days.

Secretary of War Dickinson, who voted for neither Taft or Bryan, must be the only nonpartisan Cabinet officer we ever had.

Mr. Roosevelt gave his African freight a characteristic and instinctive touch by having all his boxes painted red.

Undoubtedly America leads the world. What do they know about burning men at the stake in any other country?

You can no longer swear into the telephone in Texas. This will probably reduce the Texas profanity output.

A Dixie court has decided that it is unlawful to call a man a "liar." Besides it is frequently quite dangerous.

It is suspected that Senator Jeff Davis has gone into temperary seclusion for the incubation of another sizzling trust-busting speech.

"Will the republic endure?" inquires Mr. Thomas W. Lawson. The fact that it has endured Mr. Lawson so long ought to be proof positive of its abundant ability to stand anything.

The fact that Mr. Roosevelt is carrying a full supply of razors to Africa does not necessarily mean that he expects to meet any of these Brownville soldiers in the jungles.

"Senator Smith of South Carolina, went up to see the President yesterday, and lost his hat in consequence," says the Charleston Post. Senators have been known to lose their heads in that locality, too-but not lately.

## GOOD ROADS QUESTION.

The paramount question before the people of Randolph and the State at large is the question of Good Roads. The county will develop just in the ratio of the betterment of the public roads and no faster. No expenditure of public money in the county could possibly bring such large returns as that expended in permanent road building. It may take years of agitation before Randolph enters upon an era of permanent road building, but the time will come when the county will be traversed by many macadamized roads. Guilford, Mecklenburg and other counties in the state have built and are still building macadam roads and before many years, Randolph will fall in line and construct roads equal to those built in other counties.

Agitation for good roads is national in its scope and every state in the union is making more or less progress along this line.

Concerning good roads in Ohio, the Toledo Blade says editorially: "Does it pay a county to assume a large indebtedness in order to obtain good roads? Paulding county, Ohio, answers yes and with enthusiasm.

Since 1882 Paulding has been issuing bonds to raise money with which to improve the highways. It was not, however, until 1898 that the campaign for good roads really started in the county. The people wearied of the half-hearted and almost futile attempts to make a road out of soil that had once been the bed of a swamp.

There were months when the roads could not be complained of and other months when the cautious farmer hesitated between wagon and boat when he had to go to market. Today the county has nearly 500 miles of excellent macadam in exchange for a million dollar debt. Land in 1830 could be bought for \$5 an acre. It climbed to \$15 by 1899. Now it sells around \$50. Choice land which in 1898 brought \$50 per acre commands \$150 at this time. The tax duplicate shows a valuation of \$7,348,000, admittedly far smaller than the actual value. Population has been increasing. Crop returns have improved tremendously. There is a demand for farming property. Facilities for transportation are excellent and are improving.

The counties seeking population and prosperity in competition with one another will, as in the case of cities, have to offer fixed attractions. Promises will not do. What could prove a stronger magnet than well laid highways?

## Words To Freeze The Soul.

I would not take all the money in the world for what it did for my boy." Infallible for Coughs and Colds, its safest, surest cure of desperate Lung diseases on earth. 50c., and \$1.00.
