Chivalry in Wyoming.

We can't understand why a man—a full-grown male person—should object to women suffrage—if the women want it, says the Rawlins Republican. We are of the opinion that woman is entitled to just about anything that her heart may desire. If she wants to vote for mercy's sake give her the ballot. If she wants to run for office the spectators should stand back and give her plenty of elbow room, and if necessary to her success in contests of this character let her costume be such as to interfere as little as possible with her progress. We are for women first and other things afterward. So is half the population numerically and seven fifths intrinsically. In other words, she is the whole blooming works, plus.

If she is happy the rest of us guys ought to be tickled to death. Therefore franchise her if it will please her, if it will make her smile, if it will give us common male mortals a glimpse into heaven through her sweetly curved lips; in the name of all that is good and holy, franchise her. Give her the ballot if it will improve her already lovely disposition. Give it to her, and give it to her quick. This world is too commonplace and life too dull and short to deny woman anything that might possibly enhance her many God-given graces.
