

BETTER TEETH FEWER DENTIST'S BILLS

Your teeth decay because particles of food get into crevices between and around the teeth and create germs of decay. Ordinary tooth powders and washes are entirely inadequate to prevent it.

Try Paxtine Toilet Antiseptic, a delicious, harmless germicide. Just a little in a glass of water, and rinse the mouth and brush the teeth thoroughly.

It will whiten the teeth, prevent and remove tartar, destroy all germs of decay and save you dentist's bills.

Paxtine thoroughly cleanses, deodorizes and keeps pure and odorless false teeth and bridgework. Paxtine is far superior to liquid antiseptics and peroxide for all toilet and hygienic uses. At Druggists 25 and 50c, or sent postpaid upon receipt of price by The Paxton Toilet Co., Boston, Mass. Send for a free sample.

Traveling by Wheelbarrow.
"I must hasten on to Ping-Ying. This trip of 45 miles was to be undertaken, to our huge delight, in wheelbarrows, but in two days, with a Chinese inn for the night. Bishop Scott and I were on one barrow, Lancheater followed on the second, the luggage in a third. We did it luxuriously, with three men to each barrow—one in front, one behind on the handles, and a third with a rope in front of all.

"Are there springs to the barrow? Certainly not; it would be no fun if there were. Bumps? Of course. On the first day we calculated we had 25,000 of them; the best were caused by drops of six inches or more from one stone to another. I got quite used to them, and found I could sleep stretched luxuriously on my mattress."—Bishop Montgomery in Mission Field.

How He Averted a Duel.
The following is told of former Senator Joe Blackburn of Kentucky: In the days of his youth the Kentuckian was asked by a friend to second him in a duel. He consented, and at sunrise the parties met at the appointed place. Now, it was this Kentuckian's duty to say the last words touching the terms of the duel. But, although he faithfully performed his duty, the duel never took place. A murmur of "Why not?" invariably goes around whenever this story is told, whereupon the answer is as follows:

"For the very simple reason. When Joe finished speaking it was too dark for a duel."—Harper's Magazine.

COFFEE HEART Very Plain in Some People.

A great many people go on suffering from annoying ailments for a long time before they can get their own consent to give up the indulgence from which their trouble arises.

A gentleman in Brooklyn describes his experience, as follows: "I became satisfied some months ago that I owed the palpitation of the heart from which I suffered almost daily, to the use of coffee, (I had been a coffee drinker for 30 years) but I found it very hard to give up the beverage.

"One day I ran across a very sensible and straightforward presentation of the claims of Postum, and was so impressed thereby that I concluded to give it a trial.

"My experience with it was unsatisfactory till I learned how it ought to be prepared—by thorough boiling for not less than 15 or 20 minutes. After I learned that lesson there was no trouble.

"Postum proved to be a most palatable and satisfactory hot beverage, and I have used it ever since.

"The effect on my health has been most salutary. The heart palpitation from which I used to suffer so much, particularly after breakfast, has disappeared and I never have a return of it except when I dine or lunch away from home and drink the old kind of coffee because Postum is not served.

I find that Postum cheers and invigorates while it produces no harmful stimulation." Name given by Postum Co., Battle Creek, Mich.

Ten days' trial proves an eye opener to many.

AN INTERESTING SUIT

THE COMPLAINTS OF THE WARE-KRAMER TOBACCO COMPANY AGAINST COMPETITION.

DEMONSTRATION FARM WORK

Railroads Want Adjustment of Regulations Governing Mileage Book Ticket Windows—Additional Postal Banks Established.

Raleigh.—The definite setting of the famous million and a half dollars damage suit of Ware-Kramer tobacco company, Norfolk, vs. the American tobacco company, for trial at the May term of the United States court, before Judge Henry G. Connor gives this long-standing litigation an immediate interest and promise of speedy settlement. The suit was originally for two and a half million dollars for the destruction by the great tobacco trust of the business of the plaintiff in cigarette manufacturing business, first at Wilson and later at Norfolk, where the complaint is that the company was finally forced into bankruptcy by the relentless business persecution of the American tobacco company maintained toward them as a business competitor.

One million of the damages claimed was lopped off some months ago by a ruling by Judge Connor that the claim for damages must be confined to the phases of damages allowed under the Sherman anti-trust act, no punitive damages being admissible in such a case as this. The bill of complaint sets out about every phase of competition that a trust is supposed to exercise in driving out competition, including contracts binding dealers in handle none of the goods of the plaintiff and spreading reports about the Ware-Kramer company detrimental to their commercial standing. One section of the complaint sets out that the plaintiffs shipped two carloads of cigarettes to China to fill orders received and that the two carloads completely disappeared, never reaching their destination, an investigation showing that American tobacco company goods actually arrived in the stead of the Ware-Kramer shipment. They charge too, that the trust really paid the plaintiff for the two cars of cigarettes in question, the inference in the complaint being that the trust found through a sort of detective service that the Ware-Kramer company had secured the big order from the Orient and set about to prevent its delivery and the substitution of its own goods. There was a draft attached to the bill of lading and this was duly paid and the Ware-Kramer company assert that they had no inkling of any "hold-up" in the delivery of their goods until their agent found that it was American tobacco company goods and not the Ware-Kramer goods that were supplying the trade that the two-car shipment was intended to supply.

Another remarkable feature of the complaint is that in which it is set out that W. M. Carter, as a secret agent of the American tobacco company, contracted for \$10,000 stock in the Ware-Kramer company and was put in charge of the sales department at a good salary and that they soon found that he was really knocking the Ware-Kramer company in every way he could and decreasing their business and prestige as fast as possible. A subsequent order of the court had made Mr. Carter a party to the suit as a co-defendant with the American tobacco company. It was the Wells-Whitehead cigarette company that the American tobacco company used principally in fighting the Ware-Kramer company, according to the complaint.

All the papers in the case have been carried by Judge Connor to his home office in Wilson, where he is going through the depositions and putting the papers in order for the least possible delay in the progress of the trial when the case is called. The court will convene May 22 and the first week will be devoted to criminal cases. Then the Ware-Kramer company vs. American tobacco company case will be called and it is expected that something like a month will be required in the trial.

Doctor Violated Cattle Laws.
In Wake superior court Dr. N. M. Blalock of Wake county was convicted of violating the state cattle quarantine laws by bringing cattle from Johnson county to his plantation in Wake. The prosecution was by R. H. Battle for the state board of agriculture under the direction of which the campaign for the eradication of the cattle tick in this state is carried on.

Judge Whedbee entered a nominal fine of \$5 and costs against Dr. Blalock.

New Rural Routes Established.
The postoffice department announces that three new free delivery routes have been authorized for North Carolina, effective immediately. They are as follows: Angier, Harnett county, additional service route No. 2, length 17.33 miles, families 90; Kannapolis, Cabarrus county, route No. 1, length 17.15 miles, families 75; Wake Forest, Wake county, additional service, route No. 2, length 25.01 miles, families 150.

Other routes will be established upon the proper showing to the postoffice department.

Railroads Helping the Farmers.

There is to be a marked increase in the demonstration farm work during the coming summer as carried on under the joint auspices of the state department of agriculture and the railroad companies for the improvement of farming methods in the territory traversed by the various railroads, especially the main lines. Last summer the Norfolk Southern led off in this work with farms established in eastern Carolina on its lines, as many as a half-dozen being established. Now the Seaboard Air Line has just perfected arrangements for similar co-operative work between it and the state department of agriculture. The Southern has work of this sort well established in the western section of the state, especially the Asheville section, with promise to extend it ere long into the central and southern sections of the state that this line traverses.

The state department of agriculture, in its co-operation in work of this kind, passes upon the types of soil to be used, the fertilization and the seed selection along with the methods of cultivation.

The Seaboard has engaged an expert to have general charge of this demonstration work on its lines and he is expected to arrive very soon now. He will co-operate with State Agronomist J. L. Burgess in locating the demonstration plots and the inauguration of the demonstration work.

The work of this kind by the Southern Railway company in the western section of the state is not in any way directed by the state department of agriculture, but the department is deeply interested in it and gives its influence to the success of the effort.

Mileage Book Ticket Windows.

The railroad companies are moving on the corporation commission just now for definite adjustment of the regulations for mileage book ticket windows at a number of stations where more inhabitants as passed by the recent legislature as a compromise in the fight that was made by traveling men for pulling mileage on trains. The railroads are asking the commission whether or not there must be two windows at a number of stations where there are 2,000 inhabitants, but where the railroad companies claim that there is not the necessity for the double expense in sale of tickets. The act is effective May 1. There must also be baggage checking regulations for mileage by April 15.

Elizabeth City Postal Bank.

Postmaster General Hitchcock has designated 45 additional postoffices as postal savings depositories in as many states and territories, mostly at industrial centers where there are many wage-earners. Among the offices designated were: St. Augustine, Fla.; Rome, Ga.; Elizabeth City; Anderson, S. C., and Alexandria, Va.

The Machinery and Revenue Acts.

The printed revenue and machinery acts passed by the recent legislature in convenient form have just come from the state printers and are being mailed to registers of deeds in all the counties in sufficient numbers for the county officers to be supplied so that they may be familiarizing themselves with the new features of the law which are quite important. The machinery act, it will be remembered, greatly enlarges the powers of the corporation commission as state tax commission, requiring the commissioners to go into every county and instruct the tax listers and assessors in their duties and see to it that there is a more thorough equalization of tax valuation as between counties. The commission is to appoint a county tax assessor in each county who is to supervise the work of the township assessors and act with the county commissioners as county board of equalization. The corporation commissioners are allowed an extra \$500 per year each salary for the additional duties.

Sentiment for Senatorial Primary.

There is developing a considerable sentiment in favor of requiring a primary to settle the senatorial contest between Senator Simmons and Governor Kitchin and any other candidate that may get into the field. This will have to be called by the state democratic executive committee and be held most probably at the regular election in November, 1912. It is expected that the campaign activities will very soon elicit from Governor Kitchin his formal announcement for the contest.

Building Operations in Raleigh.

It is a notable fact that conservative estimate of the probable building operations in Raleigh for the present year, not including the \$100,000 municipal and auditorium building now under construction rounded up \$1,137,000. Furthermore, none of the smaller building operations such as residences are included in this. It does include \$200,000 for hotel facilities assured and it includes the \$250,000 for a fireproof state building, and \$60,000 for building at the A. & M. college.

Demand for Farm Life Schools.

Applications are coming in to the state department of education from very many counties of the state for copies of the act of the recent legislature providing state aid for the establishment of county farm-life schools and the indications are that the limit of aid to ten schools established any single year will be quickly taken up for the current year. State Superintendent Joyner is back from Mecklenburg county where the farmers' convention decided to provide a school

I BELIEVE CARDUI CURED

Mrs. Chapman, of Branchland, Tells About Her Serious Troubles and How Cardui Helped Her.

Branchland, W. Va.—In a letter from this place, Mrs. Elizabeth Chapman says: "I suffered from womanly trouble for nearly five years. I tried all the doctors in the country, but they did me no good. I can say that I certainly do believe that Cardui saved my life. I took Cardui, and now I am entirely well.

I have gained 15 pounds, and feel like a new woman. I am thankful for what this medicine has done for me. I hope all who suffer from any kind of womanly trouble will give Cardui a fair trial.

I will continue to recommend this great remedy to all friends, for I cannot praise Cardui half as highly as it deserves."

You may be sure, that if Cardui will relieve and cure such serious cases as Mrs. Chapman's—and it is doing this every day—it will certainly help those women who have no serious symptoms, but are just weak and ailing. Whether seriously sick, or simply weak, try Cardui. It will help you.

In the past fifty years, Cardui has benefited more than a million women.

Why not test it for your troubles?

Moissan's Comparison.
"The late John B. Moissan was a genial as well as a skillful airman," said a Chicago editor.

"I remember well a visit he once made me, with drawings of an aeroplane of his own invention under his arm. I joked him a little about the machine—it certainly had a heavy, awkward look. But he said with a laugh:

"Oh, don't judge even an aeroplane by its outside. What if the man who discovered the oyster hadn't stopped to pry open the shell?"

A Cold Comparison.
"So you are going to give up poetry?"

"I am," replied the earnest youth. "I'm going to study medicine. A prescription commands enormously more respect than a poem."

A Preaching Cross Restored.

The preaching cross in the village of Burrington, situated amid romantic surroundings on the northern side of the Mendip hills, has, by the generosity of Col. Evan H. Llewellyn, been restored. It is recorded that early in 1805 the handsome fifteenth century base of the cross—all that then remained of it—was removed and utilized in building a new house for the then parish clerk. Happily, the ornamental dial stone did not share the same fate, and this has been incorporated into its original position in the new cross. Three broad and massive steps carry the old socket upon which rests a tall monolith shaft, which is crowned by one of those lantern-shaped canopies so peculiar to the west country.—From the London Standard.

HOW TO CURE RHEUMATISM.

The cause of rheumatism is excess uric acid in the blood. To cure rheumatism this acid must be expelled from the system. Rheumatism is an internal disease and requires internal remedy. Rubbing with oils and liniments may ease the pain, but they do not cure rheumatism. The pain will change the fiber of rotten wood. Cures Rheumatism To Stay Cured. Science has discovered a perfect and complete cure called Rheumacide. Tested in hundreds of cases, it has effected marvelous cures. Rheumacide removes the cause, gets at the joints from the inside, sweeps the poisons out of the system, tones up the stomach, regulates the bowels and kidneys. Sold by druggists at 50c. and \$1; in the tablet form at 25c. and 50c., by mail. Booklet free. Bobbitt Chemical Co., Baltimore, Md. Gets At The Joints From The Inside.

THE HEART

If the blood is poor and filled with the poisons from diseased kidneys or inactive liver, the heart is not only starved but poisoned as well. There are many conditions due to impure blood—such as dropsy, fainting spells, nervous debility or the many scrofulous conditions, ulcers, "fever-sores," white swellings, etc. All can be overcome and cured by

Dr. Pierce's Golden Medical Discovery

This supplies pure blood—by aiding digestion, increasing assimilation and imparting tone to the whole circulatory system. Its aortic tonic and a great deal more, having an alternative action on the liver and kidneys, it helps to eliminate the poisons from the blood.

To enrich the blood and increase the red blood corpuscles, thereby feeding the nerves on rich red blood and doing away with nervous irritability, take Dr. Pierce's Golden Medical Discovery and do not permit it a dishonest dealer to insult your intelligence with the "just as good kind."
