ONE PINE TREE WAS WORTH ABOUT \$60.00

Denton.

There's Another in Pitt County So Large That Lumbermen Can't Handle It.

M. D. Haddock, of near Black Jack, Pitt county, recently cut a oine that netted, 2,000 feet of heart timber, besides some sap lumber. That heart is worth anywhere from \$2 to \$4 per hundred feet, so that one tree was worth somewhere about \$60. There is a pine in the same section that is so large that timber men cannot handle it. It would make more than that above mentioned. There are yet some large trees, and considerable timber still standing in Pitt county.
