## FALLING TREE KILLS YOUNG SAM BARNES

Was an Excellent Young Man—Burial at Science Hill Thursday.

A shocking accident occurred Wednesday morning near Mechanics when Sam Barnes, a young man about twenty years of age, was accidentally killed. Mr. Barnes and Messrs. John and Micajah Bingham were sawing a tree and as it started to fall it jumped back, striking Mr. Barnes on the head and mashing him to the ground, where he was held until the tree was sawed in two again. His skull was fractured and both shoulder bones broken. Mr. Barnes was a son of the late Emley Barnes, who died several years ago. The young man was a good, quiet fellow and his mother's main dependence in her widowhood.

The funeral was held from Science Hill Thursday.

## 21 Million Said to Be Fortune Left by Late King Leopold.

The private fortune left by King Leopold amounts to \$21,000,000, according to a Government memorandum attached to the bill for settlement of the estate. It is reported that he had of being one of the bold business men in Europe, taken large sums of money from the baroness Vaughn, second wife of the King, nor various other millions he gave away. In the long itemization of his personal property it appears that he held shares in companies all over the world to the present total value of \$12,000,000.

## Liquor Will Be Barred Except for Snakebite.

The Kentucky house of representatives by a vote of sixty-three to thirty-two passed a bill providing for the submission to the voters at the next constitutional amendment providing for state wide prohibition. The bill also makes provision for a state dispensary system for the purpose of dispensing liquor for medicinal purposes.

The prohibition bill will now go to the senate where it is expected the opponents of the legislation will make a determined fight to prevent its passage.

All but nineteen counties in the state at present are "dry" and the unit law, enacted earlier in the session of the legislature will cause local option elections in most of these counties. The "wet" counties contain the larger cities and the big distilleries.

A number of Republicans won out in the fourth-class postoffice contests in North Carolina. In many instances no Democrats took the civil service examinations and in such cases Republicans only could be certified.

The Democratic Congressman are not going to permit the appointment of Republicans without a vigorous protest.

## "UNTIL BUSINESS CONDITIONS GET BETTER"

Norfolk & Western Railroad Has Suspended Eight Thousand Men

Roanoke, Va., March 31.—A statement was given out by President Johnson of the Norfolk & Western Railroad today concerning the reduction on that road.

All work in the shops here has been practically suspended since March 21.

President Johnson says the policy of his company is at all times to hold his expenses to meet business conditions and there has been constant retrenchments since July 1, 1913. All work possible has been retarded and a considerable amount of additions and betterment work has been suspended and will be held in suspense until business conditions are very decidedly improved.

The statement says net earnings of the road from July 1, 1913 to March 1, 1914, have decreased \$1,211,000.

There have been suspended and relieved from service a total of 8,000 men in round numbers and still further reductions will be necessary unless business revives.

## TO THE ODD FELLOWS.

Grand Master Shipman Writes Open Letter.

In an open letter to the Odd Fellows of North Carolina Grand Master M. L. Shipman writes an especial appeal for the most general and appropriate observance of the 95th anniversary of Odd Fellowship. In the course of the statement the grand master says "Since the father of the order unfurled our standard 95 years ago more than 2,000,000 have enlisted under it and \$300,000,000 has been voluntarily contributed for the maintenance of its institutions and for the comfort of those who have become victims to the trials and adversities inseparable from human life. And as fortune continues to smile on those who are bravely bearing the standard unfurled by Thomas Wilkey with the magic letters F., L. and T. on April 26, 1819, they will not become weary in the labor of love to which the life of every true Odd Fellow has been consecrated. April 26, 1914, will find the faithful still on guard, striving toward the ideal conceived by the founder of the order 95 years ago."

Berry, of Burke county, prosecuted with a view to collecting a penalty of \$100 for failure to file with the corporation commission a schedule of items in his county subject to special taxes under schedules B and C of the revenue act. The sheriff of Burke is the only sheriff in the county who had failed to comply with the law in this respect.

Not at Work. No. No!

EX-Governor R. B. Glenn has at last been duly installed as a member of the Boundary Commission but this is the first intimation of the government. He deserves it and we are glad he was given a good position with the administration.—Scotland Neck Commonwealth.

"We suppose editor Hardy meant to say that the administration had just taken the ex-governor in out of the cold. It is true he has been installed as a member of the Boundary Commission but this is the first intimation that we have had that there was work connected with the job. If there is work, and the ex-governor finds it out, we'll wager our last summer hat that he quits, or some body else will have the work to do, even if the job does pay \$7,500 per year.—Credmore Times-News.

## ROBBERS CRACK THE SILER CITY POSTOFFICE

Safe Blown and Big Sum Stolen Thursday Night—Left No Clue.

Professional safe-crackers Friday morning at 3 o'clock blew open the postoffice safe at Siler City, securing \$500 in stamps and \$275 in cash. Three explosions were necessary to enter the safe. Search was instituted immediately after the robbery, but so far no clues have been discovered which would lead to the arrest of the guilty parties.

The front of the safe was torn completely off by the force of the explosion and the postoffice was littered. The robbery is believed to have been the work of professionals.

Shortly after the robbery United States postal authorities at Greensboro were advised of the affair, and Inspector R. W. Hodgins, with other officers, have gone to the scene of the robbery to conduct a thorough investigation and to aid in the search for the thieves.

It is believed that the bandits who cracked the safe are a band of professional crooks who have been operating in various towns in this section of the State recently. Many are of the opinion that the thieves who cracked the safe at Randleman, securing a good sum of money and making good their escape are the same crew who visited Siler City.

## TAKEN PRISONERS BY GENERAL VILLA

A Mere Handful of Men Surrender at Torreón.

Chihuahua, April 4.—When Genral Villa took Torreón he took only thirty prisoners alive and unwounded, according to information received here today.

Whether this means that he executed many or that General Velasco escaped with a most of his army could not be learned.

A dispatch from an Italian army officer with the rebel artillery says that the dead men and horses were piled high in the streets at Torreón and the ruins of the city are blood-spattered. It is impossible to estimate the Federal dead, but the Italian thinks that two thousand bodies are scattered around.

Juarez, April 4.—It is estimated that the rebels have a force of forty-five hundred pursuing the Federals who fled from Torreón Thursday night. Fighting between the two forces was reported yesterday. There is nothing new today.
