PRICE ONE DOLLAR A YEAR

The Bulletin and The Randleman News consolidated September 12, 1912
Advertising rates made known upon application.

Entered at the Post Office at Asheboro, N. C. as second-class matter.

Asheboro, N. C., June 24, 1914

Mr. A. B. Coltrane hands out the plain and unadorned facts in this issue of The Bulletin. Read it.

High Point, the county seat of Aycock county, continues to boast—its latest achievement being that its postoffice goes to the first class.

This is a week of the longest days in the year. Beginning last Sunday and for this week old Sol will shine longer than any other days since last year.

Officers had to dynamite a safe the other day in Winston to get to a liquor supply that was kept on hand by one of the drug stores. It was in safe keeping all right.

10,000 and more people are on a strike in Pittsburg—but soon everything will be all right. There are plenty of idle people ready and willing to take the places of the strikers.

Mr. Voter, when you have leisure just cut this out and paste in your hat: The tax was 75c now it is 82c, and why? The Democrats promised to put the county officers on salary, they have not done it and why?

Will the layman who does not want office, and wouldn't have one, stand tied as usual? Judging from such letters as Messrs. Brooks, Glidewell and Craven write they are pulling the tethering pole pretty hard. The question is, will they break the halter?

Asheboro has probably received more free advertising of an undesirable nature since the fight over the postoffice was begun last fall than any other town in this state. Mr. Ross has been confirmed and it is now to be hoped that the mess will be closed up forever.

O. F. Crowson, editor of the Burlington News has finally lauded the Burlington postoffice. Crowson was one of the candidates when Williamson was appointed and has sense enough to keep still when he failed to get the appointment and now it comes to him for the asking!

Late reports say that the state has had to float another loan to pay running expenses. If they float many more something will drop, for the state's indebtedness has steadily grown until it has about reached the stopping point. All this under good government, so called, of the Democratic party. Mr. Voter, think of these things!

And so Mr. John W. Kurfess has written the Courier a letter? Well, he reminds us of a fellow who once upon a time made a speech in a convention about an hour long. After sitting down the man next him said, what did you say? Remember, John, it hath been said, "that fools rush in where angels fear to tread."

Automobiles are good for the man that has the money and the time to ride. But for the man who has neither to spare, they are more than he can stand. Yet people will buy them. A merchant here says that people come to him and say, "I can't pay my account in full this month; I have bought an automobile and must run it."

Tom Betts is editor of the Leaksville Courier and two weeks ago he fell out with the Democratic candidate for sheriff because he did not insert his advertisement in his paper, the only real Democratic paper in the county—so Tom said—and the last issue the sheriff's card was in Tom's paper. That may be one of the ways to get business, but not ours.

Henry B. Varner is "in bad" with several people who have been trying to secure \$20,000 to aid in building good roads in Davidson county. The money is lost to Davidson and they are accusing Col. Varner of being responsible. Be that as it may it is very evident that Mr. Varner has gone on the wrong track somewhere and as the result his county is minus \$20,000 worth of government-built good roads.

Is there not a dog law requiring all dogs to be muzzled at this time of the year? And why is not the law carried out. Last week a little girl was bitten by a mad dog running loose in South Asheboro, and others are likely to be bitten just so long as sorry good-for-nothing dogs are allowed to roam around over the country. If there is no way for protection, there should be and if there is, let it be carried out.

Col. John E. Hart of the Creedmore Times - News continues along with the Madison Herald to give the past Democratic convention down the country. They also opposed to Major Stedman as the next candidate for Congress from that district and they threaten that if they can find a good Republican candidate they will be for him. That's that sort of goods Col. Hart is built of. He's for the man and not politics, and he'll admit it even if this is from a Republican sheet?

Judging from the wail of woe sent up by a number of our exchanges, there must have been some real wire working at the late Democratic State Convention. Now, these brethren of the fourth estate ought to know that a convention composed largely of district attorneys, marshals, collectors of internal revenue, postmasters, revenue doodlers and bung smellers were not going to allow the laymen to run the party or its convention. They are the real bosses and certainly they would never submit to the people choosing their county office nominees by direct primary. Well of course not. Why Federal office holders if they can't be bosses? Well, it was a real show anyway, for there was United States Senator Overman, the sun in the convention standing stationary, and revolving around him were the moon and satellites who were eating pone fresh from their master's hand, and you bet they revolved. District attorneys, marshals, postmasters, revenue doodlers and bung smellers were there in profusion. In fact to quote an eye witness, a stranger would have thought that the Federal government had temporarily changed from Washington to Raleigh. The machine was well greased with Watts oil, after having been cleaned up with Simon's Regulator. Even staunch men like Poe, Alexander and Bruce Craven were ground to powder so far as holding influence in the convention. No neighbors of the Democratic press, the very thing to do is to shake the whole thing off and clean out the bosses. There is one way to do it, that is to get out and put an independent ticket in the field. You'll do business then.

PROVIDENCE NEWS.

Mr. Eutis Coltrane of Greensboro spent Sunday and Monday with Joe Kirkman.

Mr. and Mrs. E. F. Caudle of Randleman visited at Dolph Kirkman's Monday.

QUINN MILL BURNED
Other News Items From Randleman.

Fire of unknown origin was discovered in the Quinn Mill weaving room of the Deep River Mills about 9 o'clock Monday night, and had gained such headway that it was several hours before the firemen were able to check the blaze. Fire was first discovered in the far end of the mill, where the cloth is stacked before being taken to the finishing department, and the building being of wood, the fire spread very fast. About one-half of the mill was destroyed, 103 looms were burned together with the output for that department for Monday, being about 425 bolts of cloth. The rest of the mill was damaged considerably by water and smoke. The loss is something near \$18,000, and fully insured.

This is only a small department of the Deep River Mills and will not affect their output seriously and the labor that worked in the part that was burned will be given employment in the other parts of the plant. Nothing in regard to rebuilding can be learned yet, but the management has contemplated for some time the building of a modern brick structure, to take the place of the one that was burned and in all probability work on a new building will be started in the near future.

K. F. Stevens is laying brick at Oak Ridge on the new school building.

J. W. Ivey of High Point was in the city Sunday visiting his parents Mr. and Mrs. W. F. Ivey.

Robert Waggar left Monday for Biscoe to clerk for the Waggar Clothing Co. at that place.
