

PROHIBITION COLUMN.

Edited by The North Carolina Anti-Saloon League.

PROHIBITION LAW.

What It Will Do and What It Will Not Do.

It will abolish every licensed whiskey and brandy distillery in the State.

It will abolish every saloon and dispensary in the State.

It will stop the wine traffic in the State. For wine can be sold only at the place of manufacture in quantities of 2 1/2 gallons or more and not shipped anywhere in the State.

It will stop the sale of all those chemical mixtures, by what ever name known that will produce intoxication.

It will place under most stringent and binding regulations pharmacists and physicians, who may handle intoxicating liquors for medical purposes.

It will allow the officials of any town or county to regulate or prohibit the sale of intoxicating liquors by pharmacists in the drug stores.

WHAT IT WILL NOT DO.

It will not prohibit the farmer from making cider from fruits grown on the farm and selling the same at home or in his market town.

It will not stop the manufacturer from making his wine and shipping it outside the State.

It will stop the sale of those medical preparations and essences that may have alcohol in them to preserve them or to hold the medical agents in solution, such as camphor, vanilla, etc.

It will not repeal existing prohibition laws.

We are sure when you have studied this law you will agree with us that it is fair.

Under this law, Greensboro's voting wet would not make it wet, and Salisbury's voting dry would not make it dry. Under local option Greensboro has voted dry, and as a locality she must remain so until Salisbury has voted the other way. This vote on the manufacture and sale of intoxicating liquors in North

Carolina is quite a different thing from local option.

Again, this law is right. For the influence of liquor is never local. Salisbury or Wilmington citizens, while controlling the sale of the traffic do not control the dangerous and damaging influence of this traffic. This influence is felt for hundreds of miles around. Every citizen in the State has a right to self-protection against the influence of this traffic, now central at a few points, and the only way of protection is the abolition of the traffic throughout the State.

It was published in December that the Northwestern Railroad had gone dry. 25,000 employees of that road signed the pledge of total abstinence. The railroad managers had begun to show their preference for the men who did not drink, and their employees voluntarily signed the pledge. The industrial world is coming to see the harm of the liquor traffic. And what an anomaly set up licensed saloons and dispensaries to tempt and destroy men who are trying to stay sober for the sake of their jobs and their families!

North Carolina prefers mills and factories and railroads to saloons and dispensaries.

"The man is the State; his character is the character of the State. Given a nation of saloon-keepers, and the nation is a drunkard. Given a nation of gamblers, and the nation as a whole becomes the embodiment of this passion. Given a nation of libertines and prostitutes, and the nation itself is a mammoth monster of lust. The nation is what its people are—regardless of its resources and its power."

North Carolina will put herself on record on May 26th, in favor of encouraging homes, cotton mills, furniture factories, farms, and against the liquor traffic—the enemy of all these.

The present temperance campaign is a battle of the home against the saloon and the still.

"Every man to his trade" is an old adage and is familiar to nearly all of us. It is brief in its wording but conveys a great deal in its meaning. It is merely a terse way of saying that a man who makes a specialty of any one thing knows more about, and is more proficient in his particular specialty than any one else could be. It is for this reason that we all seek a specialist when we have any serious physical ailment. It is for the same reason that The Rydale Remedy Co., went to one of the best specialists in the U. S. on liver and intestinal troubles, a professor in a Columbus, O. Medical College, and secured from him a prescription from which Rydale's Liver Tablets are made. This specialist knew more about liver troubles than a doctor who treats all diseases, and that is why Rydale's Liver Tablets relieve and cure more quickly all liver troubles than the ordinary liver pills and powders.

We should treat our detractors and calumniators as Mirabeau did. When speaking at Marsailles he was called "calumniator, liar, assassin, scoundrel." He said: "I wait, gentlemen, until these amenities are exhausted."

I have had it nearly all my life and feel so thankful that I have at last found something that helps me, for only those that have this disease know what it is." A Glance Ahead. If Taft were elected President, he would probably have the appointment of three or four justices of the United States Supreme Court. It is not hard to guess how such appointees would stand on the question of government by injunction. With Federal courts backed by Taft, and a big army and a big navy controlled by Taft, there would be no use for a Congress to make laws, or even for the blessed initiative referendum; since the courts and the army and the navy, both directed by Roosevelt per Big Bill would really govern the country without regard to laws. This seems to be the true inwardness of the Roosevelt policies, so warmly endorsed by some Democrats whose blind sight is better than their foresight.

This is what Tom, Jake Moore, State Warden of Georgia, says of Kodol For Dyspepsia. "E. C. DeWitt & Co., Chicago, Ill.—Dear Sirs—I have suffered more than twenty years from indigestion. About eighteen months ago I had grown so much worse that I could not digest a crust of corn bread and could not retain anything on my stomach I lost 25 lbs.; in fact I made up my mind that I could not live but a short time, when a friend of mine recommended Kodol. I consented to try it to please him and I was better in one day. I now weigh more than I ever did in my life and am in better health than for many years. Kodol did it. I keep a bottle constantly and write this hoping that humanity will be benefited. Yours very truly, Jake C. Moore, Atlanta, Aug. 10, 1901." Sold by Standard Drug Co. and Asheville Drug Co.

There is no doubt that most of the business world, outside of Wall Street, is opposed to the methods of President Roosevelt even when they approve some of his policies.

UNCLE SAM RECEIVES GIFT.

Redwood Canyon Deeded To United States by Mr. Kent.

Washington, Feb. 29.—One of the most public spirited gifts ever made to the government has come from William Kent, of Chicago, who has just deeded to the United States 295 acres of primeval redwood forest on the southern slope of Mt. Tamalpais, about six miles from the city of San Francisco. The land was deeded to the government with the approval of Forester Gifford Pinchot, Chief of the United States Forest Service. The papers have now gone to the Secretary of the Interior and a proclamation declaring the canyon a National Monument will be signed at an early date.

This means that more of California's redwood glades will be saved for the scientific study and pleasure of the whole country, in fact the whole world, for the great sequoias are only found in the Golden State. This grove given to the government by Mr. Kent is one of the few tracts of redwood forests to be found in its natural state in California today. The land is said to have cost Mr. Kent \$47,000 some years ago, but its stand of redwood timber alone is now valued at more than \$150,000 on the market.

To R. F. D. Patrons.

The Postmasters of the county desire to call attention to the practice of some patrons of rural delivery of placing loose coins in their boxes each time they desire to dispatch letters instead of supplying themselves with postage in advance of their needs.

This practice imposes undue hardship on rural carriers in removing loose coins from boxes and delays them on the service of their route.

The postmaster, therefore, ungenially request that patrons of rural delivery provide themselves and keep on hand a supply of stamps consistent with any in advance of their needs. It is also very desirable that rural patrons place in their mail boxes small detachable cups of wood or tin in which to place coins, when necessary, in purchasing supplies of stamps.

The Courier publishes the above at the request of several postmasters in Randolph.

Free for the asking. A sample of either Rydale's Stomach Tablets for indigestion and stomach trouble, or Rydale's Liver Tablets for the Liver, Bile Duct and Bile, or both if needed by any sufferer who will write the Rydale Remedy Co., Newport News, Va.

Another Roosevelt Panic.

President Roosevelt has put the Interstate Commerce Commission to work to find evidence that it is not "my policies" that have brought on hard times and the reduction of the wages of railroad men. As the Commission is a creature of the Executive it will no doubt discover that the "malfeasors of great wealth," such as Harriman, Hill, Rockefeller, Vanderbilt and others, have been the sole cause of the panic and are reducing railroad wages on purpose to worry the President.

Amusement Dispensaries are a serious threat to the health of the nation. He talked of the World's Great Amusement Dispensaries, painters, sculptors, etc. He said that every one who goes to these places in the city, who like the world better than to find it, was a fool, that he was a fool, a dish well laid for the world's betterment. He might as well have said that he was a fool, a great one, like Rydale's Tonic works for the whole system. Rydale's Tonic is a human system builder. It purifies and builds the blood, restores weak nervous systems and increases the strength and weight. All who have used Rydale's Tonic, pronounce it a great system tonic and builder. Asheville Drug Co.
