

**RECIPE MIXED OFFER.**

**Druggists Hear Much Praise for This Simple Home-Made Mixture.**

Some remarkable stories are being told about town and among the country people coming in of this simple home-made mixture curing Rheumatism and Kidney trouble. Here is the recipe and directions for taking: Mix by shaking well in a bottle one-half ounce Fluid Extract Dandelion, one ounce Compound Sargol, three ounces Compound Kargon, three ounces Compound Syrup Sarsaparilla. Take as a dose one teaspoonful after meals and at bedtime.

No change need be made in your usual diet, but drink plenty of good water. This mixture, writes one authority in a leading Philadelphia newspaper, has a peculiar tonic effect upon the kidneys; cleansing the clogged-up pores of the eliminative tissues, forcing the kidneys to swift and strain from the blood the uric acid and other poisonous waste matter, overcoming Rheumatism, Bladder and Urinary troubles in a short while.

A New York druggist who has had hundreds of calls for these ingredients since the first announcement in the newspapers last October stated that the people who once try it "swear by it," especially those who have Urinary and Kidney trouble and suffer with Rheumatism. The druggists in this neighborhood say they can supply the ingredients, which are easily mixed at home. There is said to be no better blood-cleansing agent or system tonic known, and certainly none more harmless or simple to use.

**Public Necessity Which Will Benefit All**  
The High Point Enterprise Says: "The people around Archdale and Trinity will probably take some steps towards improving the public road between the two places. This is almost a public necessity and will not only benefit the people in that community, but will be a great help to High Point and the territory South of Trinity. A few hundred dollars would put this road in first class condition and with the right man to head the movement we believe that the money can be raised very easily."

"The work should be done this summer by all means, if not, by next winter the people from Trinity and below there in coming to High Point will either have to take the train or a flying machine."  
[It is a recognized fact that Greensboro and High Point secure a liberal portion of trade of Randolph county. It has been secured through the progressive spirit of its citizens.]

For several years Guilford county has been doing permanent road work, and has built macadam roads from these points direct to the Randolph line. All this time they have been advertising and cultivating the trade in this section. Today the business men of Guilford are urging our people to build roads to connect with them that they may fight all the harder the merchants and business men of Randolph.

When will our business men and citizens awake to the great risk they take in allowing the matter of road improvement to remain on the shelf?

**HUNTING STORY.**

**Franklinville Hunters' Camping Trip —The Fare.**

Clyde Ellison and Fletcher Alfred, two of our noted hunters and trappers, returned a few days ago from an extended expedition to Montgomery and Stanly counties. On January 20th they loaded up their wagon with traps, tents and other supplies and started for the above counties. They no doubt dreamed of coons, minks and muskrats that would walk headlong into their traps and of squirrel stew, roast goose and fat gobbler waiting to be captured. When they arrived at the happy hunting ground after a two day's journey, they pitched their tent on the bank of Poedee river, near Mill Mt., and after supper sat around the campfire and talked of their former hunting and trapping expeditions, and after a good night's rest they were up early next morning and plunged into the forest, set up a line of traps and with their guns set out for a hunt as their rations had now been swallowed up and meal time was fast approaching. For several days they hunted and trapped and one lame muskrat, one sap sucker one fish hawk were their only meat. It is said that eggs near the happy hunting ground have advanced five cents in the dozen and chickens are roosting in the highest limbs. The boys are expected to make another hunting trip at' out January 1920.

Charlie Ellington and family moved to Burlington Thursday.

It B Ellington, who has accepted a position with the cotton mill, at Burlington as overseer, came in Saturday night and says he is delighted with his new home. Ellington was general overseer of carding and spinning at the Handman mill for a long time.

President Gompers of the Federation of Labor declares that wages must not be reduced, but he must remember that Labor is not protected by the Republican tariff like the Steel Trust, and therefore Labor is subject to the law of supply and demand regulating the price.

What is the good of trying to boost the present brand of Republican prosperity when the Chaplain of the House of Representatives prays for the unemployed?
