Stand Patters Will Allow No Tariff Re vision at Cerning Session of Congress. Cannon In the Saddis—Opportunity For the Minarity — Mada to Order Presperity—The Paril of Monopoly.

By WILLIS J. ABBOT. Obviously it is not intended that the people shall rule in the matter of pelecting United States senators, and the country has been permitted to witness the final selection of a sen-ator from New York in the brilliant personality of Elibu Raot during the personancy of kind koot arms to past week the while the people of New York looked on, interested but impotent observers of the process. Beginning with the somewhat axio-matic proposition that the aged Thom-

that Mr. Root would be the activity ator. Wherein the mass of the voters of New York had to say in the making of this programme does not appear to the nverme observer. No caprossion had been added or given by the people of that state on the subject, nor had the membership of the state assembly been consulted.

Aroiding discussion of the fitness of Mr. Reet for the office which Mr. Roosevelt selected for him, certainly this exhibition of substitution of oligarchical for popular mandate has been the one Eliminating event of the post-election period.

I have sought accurate information of remonal le expectations as to re-vision in the coming special session, and although the search was thorough and withel in the hope of fielding prospect therefor. I was compelled to conclude that the American people may as well as not depend the status que as impregnable for the present. When both stand pat and progress-ive members of the dominant party unite in admitting that the existing high schedules will not be altered ma-terially probably it will not be regard-ed as baseless to assert that the inte election has fastened the trust crea-tive import duties on the nation for an indefinite time.

Let in not unles on the marked for the Indefinite time. local considerations warrant regreancy to the political trust which the 1008 election imposed on every Democrat. Even the opposition press concedes that failure to honestly revise the un-iff will turn over the 1010 congression-al election to the Democrats. Thus-much as the honest revision of the tar-iff is practically conceded to be an impossibility under existing conditions, the sortions duty of the minerity party. the serious duty of the minority party. as well as its obvious potential advan-
