# **OVERMAN ON TARIFF**

Denounces the Incincerity of Framers of the Tariff Bill.

A MOST INIQUITOUS MEASURE.

Mr. Overman On the Tariff Bill--The North Larolinian Denounces it For the Burdens it Imposes on the Masses.

Declaring that he believed the Payne Aldrich tariff bill to be one of the most iniquitous tariff bills ever passed by Congress, if it passed, Mr. Overman, North Carolina, in his admirable speech in the Senate on June 11, attacked the succerity of June 11, attacked the sincerity of is producing more than 50 per cent the framers of the tariff bill. He of any product consumed in the announced himself in favor of Sen- United States and that its products are Exported and sold to a foleign and declared that he proposed to market at a less perfect than in the offer as amendment planing a head home market he is authorized to sustax upon immigrants and another pend by proclamation to that effect, one giving the President the power to abrogate the collection of duties on articles similar to those manufactured by a corporation which conported into this country for any to abrogate the correction of actives on artic es similar to those manu factured by a corporation which controls fifty per cent. of American output and which offers its goods

or sale in foreign countries at lower prices than in the Unite States. Afforman also discussed the steed and lumber schedules.

Asserting that he would votagainst the bill because he claimed it was unjust and full of inequalities, Mr. Overman charged that the measure was framed in the special interest of the privileged few, while the great mass of the consumers of the country would continue to grown ander the heavy burdens of increased mastien. He said that he voters all during the campaign understood that there was to be revision dewnward, and that he believed that the tariff plank of the Republican parts was written with an honest and sincere purpose to give the people the relief they demanded. "The President of the United States is loday, as he was nother hast campaign, in facor of an honest expectable to the Senate—an army of men, representing the great intorests and troots, have been filling these balls and hotels with sellish greed, tobbying with Senators, asking for more protection," continued Mr. Overman, "They have dogged our footsteps in Congress and out of it. They have followed us to our offices and to our homes by day and by might, while the people a home accelooking to and expecting as to carry out our promise to give him a genume reform. It is charged upon the other side (and I have not heard it deuied that some of these schedules have accusally been wratten, not by the linaace committee, but by these very large in the sum of the contribusions of the was conditioned that some of these schedules have accusally been wratten, not by the linaace committee, but by these very large and an outon of the sum of the contribusions of the sum of the su that some of these schedules have actually been written, not by the finance committee, but by these representatives in their own interest.

"This high protective taulf is a par; of the great scheme devised more than a century ago, whereby a moneyed aristo racy has been ore ated in this country, and under its more than a century ago, whereby a moneyed aristorney has been created in this country, and under its once a methodisc manister but severblighting system discontent and say claims have grown and strikes become frequent. Discussing the tariff in its relation to the farmer, Mr. Overman and that the time had past when the farmer can be decrived by levying a duty on corn, wheat, tobacco, cotton and other things tailed upon the farm. "They know they can self abread and feet and clothe the world," he said. "They have beened that they amounted to me congregation Surned no protector, and such a proand.
