GOOD ROADS.

Strange to say there are many who are opposed to good roads, although often they will not admit it, and find various old out-of-date excuses for their conduct. To all such we commend them to clip the following and paste it in their hats and read every opportunity:

"A farm having 100 acres in cultivation requires at least two teams to cultivate this size farm. In Catawba the farms are, on an average, eight miles from market or railroad; put the difference of the amount of work done by each horse at \$5, hauling done over good roads and bad ones, which makes \$20. A farm of this size usually has two wagons and two other vehicles of some kind. Put the saving at \$2.50 each and you have the saving of \$10 more, which will make \$30. The road tax on an average farm of this size, at 20 cents per hundred, will not be over \$3.

"The objection, made by some people, that we are too poor to build good roads is a mistake. The fact is we are too poor not to build them. Increasing traffic makes the unimproved roads worse and worse. On them the cost of transportation is constantly increasing, and, unless something is done, competition will force us out of business. There is not a single county in the state where road improvement has been started, that the people are not anxious to carry it on as rapidly as possible."

The above is written by Mr. R. L. Sandford, of Catawba county on "Why Catawba Should Build Good Roads". The article was awarded a prize at the Catawba fair.

The opponents of good roads fail to grasp the fact that bad roads cost more than good ones.

THE INCREASE IN THE COST OF LIVING.

The cost of living in the United States has increased since 1896 nearly 60 per cent, while the cost of wages has increased less than 20 per cent. While the producer reaps some little benefit in the increase, yet the most of the benefit goes to those who control and corner prices. The trusts and combines which fix prices owe their existence to the high tariff.

The President in his message last fall attributed the increase in the cost of living to the increased production of gold. He also said that high prices were not confined to the United States—they were world wide.

It is true that the tendency in other countries as a rule is toward higher prices, but an investigation shows that the increase of the cost of living in different countries is proportionate to the height of that nation's tariff wall. Prices soar because of the high tariff rates. The high tariff enables monopolies to crush out competition and lower the price to the producer and raise it to the consumer.

It is claimed the invention of the vacuum street cleaning machine will effectually clean streets in about one sixth the time of the old style sweep and do it much better and cheaper. Keeping the streets of cities and towns clean has been one of the tough problems and anything that will help will be heartily welcomed by the authorities, who do this work, as well as the public who use the streets.

The Bell Turned Down at Randleman. At a regular meeting of the Board of Aldermen of the city of Randleman, N. C., held on the 8th inst., a petition was submitted to the Board by the Southern Bell Telephone and Telegraph Company to grant a franchise to install long distance connections and was defeated.

The Southern Bell Telephone and Telegraph Company have heretofore submitted similar petitions to the Board which have not been granted. The franchise of Randleman like to purchase some industries.

THE SUNDAY SCHOOL.

Lesson XI.—First Quarter, For March 13, 1910.

THE INTERNATIONAL SERIES.

Text of the Lesson, Matt. viii, 23-34. Memory Verses, 24-26—Golden Text, Matt. viii, 27—Commentary Prepared by Rev. D. M. Stearns.

Such marvelous power over the human body would lead many to desire to be with Him. But He must have a tried people, followers who are prepared to deny self in every form, willing to renounce earthly comforts and even to hold the dearest earthly relatives in a secondary place (verses 18-22, with x, 37-39; xvi, 24, 25). Oh, it means so much to be a wholehearted follower of Jesus! When we consider the cost of power in His name it is not to be wondered at that there is so little of it manifest, for few are willing to take the place of such utter self renunciation. The cost is too great.

Having given commandment to cross the sea, He entered into a ship with His disciples (18, 23). He would escape from the multitudes for a little season. He was weary, for His body was mortal, like ours, but without sin. As they sailed he fell asleep, and, although there came a great tempest, threatening to swamp their boat, He continued to sleep. How weary in body He must have been! How peaceful in the midst of a great storm! The disciples were filled with fear and awoke Him with the question, "Master, carest Thou not that we perish? I wonder if they had a thought of the possibility of His perishing, too, for they did not seem to know Him very well as yet. He arose and rebuked the winds and the sea. Mark says that He said unto the sea, "Peace, be still. And the wind ceased, and there was a great calm." Then they marveled at Him, saying, "What manner of man is this that even the winds and the sea obey Him?" Their question reminds us of David's question when the Lord told him of His son, who would reign forever, "Is this the manner of man, O Lord God?" (1 Sam. vii, 19). His stilling the tempest reminds us of Ps. cvii, 29, "He smothereth the storm in a calm, so that the waves thereof are still." It is the same person of whom we read in each case. His godlike forth have been from everlasting (Mic. v, 2).

It was His word which created all things and later brought order and beauty and fruitfulness out of chaos, as in the record of Gen. I. Oh, for such an acquaintance with Him as would manifest something of His power in us that others might want to know Him too! There is never a storm that His word cannot displace by a great calm. "See that ye be not troubled." "My peace I give unto you." "Be still and know that I am God." Not in verse 23 His "O ye of little faith," and compare the other three times when He said the same words (vi, 30; xiv, 31; xvi, 8). Contrast His commendation of "great faith" in viii, 10; xv, 28, and remember that "without faith it is impossible to please God" (Heb. xi, 6). Having crossed over, He is met by two demon possessed men who had their dwelling among the tombs, men whom no one could tame nor bind, for, though they had oft been bound, no chains could hold them. They were so exceedingly fierce that no one could pass by where they were. That word fierce is used in II Tim. iii, 1, and is translated "perilous" and is applied to the times in which we are living, the last days. With the combines in commerce, the conflict between labor and capital, the delusions in the pulpit and out of it, the times are certainly demon possessed, but the consummation will not be till the church is taken away and the devil shall manifest great wrath, knowing that his time is short (Rev. xii, 12). These demons knew Jesus and knew that there was torment awaiting them and that Jesus had power to send them to their place, so they besought Him that He would not send them to the abyss or bottomless pit (Luke viii, 31, R. V.), but that He would suffer them to enter into a herd of swine some distance away. Having received permission, they enter into the swine, and the whole herd run into the sea and perish. This loss of property and manifestation of His power so stirred the Gadarenes that they besought Him to leave their coast, and He did so.

The man who was healed is found sitting at the feet of Jesus clothed and in his right mind and desiring to abide with Jesus. But his request is not granted, for he is told to return to his own house and show how great things God had done for him (Luke viii, 35, 38, 39). The man went his way and published throughout the whole city how great things Jesus had done unto him. Even the keepers of the swine seemed to have no difficulty in telling their story about the loss of their property. But where do you find people now in the ordinary walks of life who have anything to tell about Him who has power to cast out demons, cleanse lepers, heal sicknesses, save from the power of sin and fill with a joy and peace with are not of this world? How much of the power of the age to come is seen in everyday life about us? Let your own heart tell, dear fellow believers, if this Jesus is so much to you that you are full of overflowing with a desire to talk of Him and of His wondrous salvation and to let Him live His life in you—not a world conformed life, but another worldly life, manifesting Jesus and not self.

FOOD FOR A YEAR

- Meat..... 300 lbs.
- Milk..... 300 lbs.
- Butter..... 100 lbs.
- Eggs..... 27 doz.
- Vegetables..... 500 lbs.

This represents a fair ration for a man for a year.

But some people eat and eat and grow thinner. This means a defective digestion and unsuitable food. A large size bottle of

Scott's Emulsion

equals in nourishing properties ten pounds of meat. Your physician can tell you how it does it.
