Local applications, as they cannot reach the diseased portion of the ear, there is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by RAY'S CATARRH CURE, sent for diagnosis free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists. What Happened At Grandma's. Little Elinor Gray lived in a big city, but her grandmother lived in a big house in the country. Elinor and her nurse, Nora, were going to visit her and had to take a long ride in the railway train and another ride in a carriage that grandmother sent to meet them, so it was almost dark when they drove up to the door. Elinor's grandmother had two beautiful dogs—Bruno, a big collie, and Boulder, a little fox terrier. And when they saw the little girl jump out of the carriage they barked and barked because they were so glad to see her. And they said to themselves (I think they said to themselves): "We will let her have a good sleep tonight, for she must be very tired, and it is nearly dark. But tomorrow, bright and early, we will ask her to come for a romp with us in the garden and show her how much easier it is to live in the country than in the city, where little girls have to walk so quietly along the streets and dogs have to be led along the sidewalks and cannot frolic on the soft green grass." Elinor was very sleepy after her long ride in the train, and so, after she had had her supper her grandmother told her she might go to bed early and get a good sleep and that Nurse Nora would call her at 7 o'clock in the morning. But what do you think happened? Why, Bruno and Boulder somehow got into the house before 7 o'clock that morning and came leaping up the stairs and went straight to Elinor's door. Elinor was a very sound sleeper and did not hear them at first and did not wake up. But soon Boulder began to scratch at the door with his little sharp claws and to make queer little whiney sounds, and Bruno's bushy tail went rap, rap, rap, on the door too. Then Elinor woke up and listened a moment, and then she said: "Oh, I know what it is! It's those darling dogs!" And she jumped out of bed and opened the door, and there, sure enough, was Boulder dashing right into the room, barking "Good morning! Good morning!" and big Bruno looking at Elinor as if saying: "Good morning! Didn't you hear us? It's time to get up!" Elinor said: "Oh, you beauties! Yes, I know! And I'll get dressed right away!" But what do you think happened then? Why, Bruno and Boulder didn't give her time even to call Nurse Nora and get dressed. You see, Bruno and Boulder did not often have so nice a little visitor, and they were ready to begin play that very minute. Boulder was jumping up and down and all over the room and at last spied Elinor's slippers on the floor and caught up one of them between his sharp little teeth and ran round and round the room with it. But Bruno chased Boulder all round the room trying to make him drop the slipper, while Elinor stood still and laughed and laughed and laughed. But just then Nurse Nora came rushing in from the next room, asking what was the matter, and in a minute the naughty Boulder was made to give up Elinor's slipper, and Bruno chased him all the way out of the house.—St. Nicholas.
