He further says that "the propesition has so little merit we have not Mrs. E. E. Mofbit made any fuss about it—hence the J. E. Walker sition has so little merit we have not idea has gone abroad that we did idea has gone abroat you one except not oppose it. If any one except real estate dealers at High Point McCrary Redding Hwd. Co. ean be benefitted, I cannot see it." Mrs. Emma Kearns Our friend is exactly correct. The

people of Randolph as a rule have looked upon this proposition as without merit. The Courier and others have not considered the matter other than an effort on the part of a few real estate dealers to boost our progressive neighbor to wn. It is true that the High Pointers are maintaining expensive headquarters with a plentiful supply of real estate dealers on hand each day. It is also true that professional lobbyists are on the ground button-holeing the members of the general assembly singing the song of the real estate dealers, with a plentiful supply of the coin of the realm jingling in their pockets. It is likewise said to be true that law yers are employed to direct the display of fireworks which are now making the nighborhood of the

Frazier Park.

Asheboro ought to have a park with twenty acres and some d public moneys will be used here elsewhere to establish parks. The best thing we can do now to have a small park. Mr. R. W.

Frazier has agreed to deed three acres for a park, and steps are being taken to arrange to improve the park at an early date.

In Kansas City there are forty-five miles of boulevards and 1,000 acres of park at a cost of ten million dol-lars, and yet instead of this being an expense or loss, it is looked upon as an asset as the property fronting on the boulevards has sdvanced in value more than that amount.

It is a good investment for a town Lee Loffin, Carrie Burrow, Little Belle Robbins. Fifth G.ade-Urslie Clark, Eta to spend money out of its revenue for its parks and driveways.
