

INCREASE THE WHEAT YIELD

T. B. Parker Tells How the Kansas Station Grows Wheat and Declares it to Harmonize with His Own Experience.

Editor:—The following tells how to grow wheat in Kansas taken from the Kansas Experiment Station Bulletin, No. 1. It will prove of interest to the wheat growers of North Carolina.

The results of this experiment harmonize with an experience writer had in breaking land wheat near Hillsboro, N. C. several years ago. Part of the land was broken in July. On account of the land being so dry and hard the balance of field was plowed until October, just before sowing wheat. The field was plowed then and worked well with a Cutaway plow. The strip that was broken in July was noticeable for its extra growth throughout the season and I think yielded two or three times as much as land lying within four feet of that was not broken until later. However, let the Kansas Experiment speak for itself.

Methods of Preparation, yield per acre.

Plowed Sept. 15, three inches deep,.....	14 46
Plowed Sept. 15, seven inches deep,.....	15 79

"This experiment was conducted last year upon upland soil very low in fertility. The yield was in wheat the year before. It was all seeded the same date, Sept. 29, with Beard's Five wheat, sown with a disk at the rate of one and one-half bushels per acre." The plot disked and not plowed before seeding. The other plots were treated as indicated in the table. An effort was made to prepare the best seed-bed possible with each method employed.

All plots were harrowed immediately after plowing, except where otherwise indicated, and were worked thereafter as was necessary to maintain a mulch and to prepare a seed-bed."

Disking.

The plots were double disked July 15. One of these was plowed August 15 and the other September 15. The plot plowed August 15 produced 32 68 bushels per acre. The plot plowed September 15, 23.37 bushels per acre.

This indicates that for the best results the ground should be worked within a month after plowing. If postponed later than this all moisture saved by the early disking is used up by the rank growth of weeds, grass and volunteer wheat that grow on the ground has been disked."

While disking is the desirable method of preparing the seed-bed when used in connection with plowing, the method of preparing the seed-bed by disking alone cannot be recommended when wheat follows small grain.

Plowing.

"Ground was plowed July 15, August 15 and September 15. Two plots were plowed in July, one seven inches deep and the other three inches deep. After plowing both plots were worked exactly alike. Three plots were plowed in August, all seven inches deep. One plot had been disked in July, and of the other two one was worked as was thought desirable throughout the summer and the other left without working until September 15, when it was worked in the same manner as the September plowed plots. Three plots were plowed September 15. Of these, one was disked early, the other two had been uncultivated previously and plowed and were plowed deep and shallow, respectively. After plowing all three plots were worked alike.

These methods, the early

Celebrated Holt Farms in Alamance To Be Sold at Auction

Recently, the Alamance Insurance & Real Estate Company of Burlington bought the three big farms of L. Banks and W. E. Holt, five miles from Burlington. These farms consist of about 1,800 acres with three handsome home places. Two of the home places, with about 800 acres have been sold, and the balance will be cut up in small farms of 25 to 200 acres and sold at public auction, on Tuesday, August 29th. Payments one fourth down, balance in 1, 2, and 3 years. In the 200 acre tract is included the L. Banks Holt home place. Each farm is so divided that they are well watered and wooded. The majority of this land is dark red soil, and in high state of cultivation.

A new macadam road has just been completed to Alamance Mills adjoining this property, and the main road to southern Alamance passes through this property, and will be one day a National Highway to the Alamance Battle Ground Monument. Free delivery of Mail, Rural telephones, good schools, churches etc., make these desirable and modern farms.

Free carriages will meet all trains on the date of sale, and free barbecue to all visitors. For all information, write The Alamance Ins. & Real Estate Co., Burlington, N. C.

Wife Got Tip Top Advice.

"My wife wanted me to take our boy to the doctor to cure an ugly boil," writes D. Frankel, of Stroud Okla. "I said 'put Bucklen's Arnica Salve on it.' She did so, and it cured the boil in a short time." Quick-acting healer of Burns, Scalds, Cuts, Corns, Bruises, Sprains, Swellings. Best Pile cure on earth. Try it. Only 25c at Retail Store and Asheboro Drug Co.

The amount of wheat raised at Worthville by each farmer this year was as follows: Mr. W. H. Dean, 185 bushels; Mr. W. A. Williamson, 128 1-2; Mr. Joe Giles, 100 1-2; Mr. Nathan Sheffield, 325; Mr. E. C. Williamson, 77 1-2; Messrs. Pickett and Prevost, 135.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed there is a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure, sent for circular, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

Edwin A. Abbey, one of America's greatest artists died in London last week. He was born in Pennsylvania but for several years had lived in England.

deep plowed plot gave the largest yield, 38.36 bushels per acre. The next largest yield was from the shallow plowing of the same date. This plot made a yield of 33.46 bushels per acre. Of the plots plowed in August the plot disked July 15, made a yield of 32.68 bushels per acre, as compared with 27.74 bushels for the plot not disked."

The above experiment was made during a dry season. If the seasons had been favorable there would probably have not been such a difference in yields. From the above I gather that in the South we can make our largest yields of wheat by breaking the land deep in June and July and sowing to peas or soy beans. Cut as early as possible for hay and immediately disk the land well. Keep it well disked until time to sow the wheat so as to conserve the moisture.

I have no doubt but by observing the above we can double our present yield of wheat. In fact even at this date we can materially increase the yield by at once plowing and disking the land and keeping it worked until time to seed the wheat. T. B. Parker, Demonstrator.

Thousands Have Kidney Trouble and Never Suspect It.

How To Find Out. Fill a bottle or common glass with your water and let it stand twenty-four hours; a brick dust sediment, or settling, stringy or milky appearance often indicates an unhealthy condition of the kidneys; too frequent desire to pass it or pain in the back are also symptoms that tell you the kidneys and bladder are out of order and need attention.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills almost every wish in correcting rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. Corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root is soon realized. It stands the highest because of its remarkable health restoring properties. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle sent free by mail. Address Dr. Kilmer & Co., Hamilton, N. Y. Mention this paper and remember the name, Dr. Kilmer's Swamp-Root, and the address, Borden Building, N. Y., on every bottle.

Birthday Dinner.

On August 8th, one hundred and twenty five friends gathered at the home of Mr. and Mrs. L. H. Hatley, in honor and love to them and to celebrate Mr. Hatley's 41st birthday. A long table was arranged under some large white oaks, then after having some music. Rev. Geo. Laughlin made a very touching talk his text taken from 1st Peter 2nd chapter 17 verse, Honor all men, love the brotherhood. Fear God Honor the King." Then after singing the table was spread with plenty of good things to eat. Before eating brother Hatley spoke a few words of welcome, and introduced E. O. York who made a sort address and offered thanks for the many blessing which we have received.

After which dinner was served and very much enjoyed by all. After dinner was over we had music and singing by the young people. Mr. W. M. Stevenson one whom we all honor and love chanted Geography.

Mrs. Hatley served her cool lemonade which was enjoyed by all. Then after talking and having pleasant time for a while the people began to separate going to their homes hoping if they never all meet again in this world that they will all meet again in heaven.

One who was present.

Life Saved at Death's Door.

"I never felt so near my grave," writes W. R. Patterson, of Wellington, Tex. as when a frightful cough and long trouble pulled me down to 100 pounds, in spite of doctor's treatment for two years. My father, mother and two sisters died of consumption, and that I am alive today is due solely to Dr. King's New Discovery, which completely cured me. Now I weigh 187 pounds and have been well and strong for years." Quick, safe, sure, its the best remedy on earth for coughs, colds, lagrippe, asthma, croup, and all throat and lung troubles; 50c & \$1.00. Trial bottle free. Guaranteed by Rexall Store and Asheboro Drug Co.

Think It Over

Were a friend to tell you: "I have had my own carriage and had my fill. I have went to three balls in one night, I have lighted my cigar with a ten-dollar bill, and all when money was tight," you would think he was boasting, possibly prevaricating. But if he should say that the carriage was a baby carriage, the three balls a pawn shop and the ten-dollar bill a board bill, you would see the joke.

When a farm paper advertises three full years for 35 cents, and it is a monthly publication, they give you just 36 numbers in the whole three years' time. Again when they advertise three full years for a dollar and it is a semi-monthly publication, you get 72 issues in the whole three years. In the first case sixteen issues less than The Progressive Farmer and Gazette gives its readers every year; and in the latter case they give only 20 issues more in the three years than we do in one year. And you know that a paper coming once a month, or even twice a month, can't be as interesting, or as timely, or as helpful as a paper coming every week. Don't forget that The Progressive Farmer and Gazette is made in the South, by Southern men, for Southern men, and dealing with Southern conditions only.
