Opportunity.

Said yesterday to to-morrow:
"When I was young like you, I, too, was fond of boasting Of all I meant to do.
But while I fell a-dreaming Along the pleasant way, Before I scarcely knew it I found I was to-day!

"And as to-day, so quickly My little course was run, I had not time to finish One-half the things begun. Would I could try it over, But I can ne'er go back; A yesterday forever, I now must be, alas!

"And, so; my good to-morrow, If you would make a name That history shall cherish Upon its roll of fame, Be all prepared and ready Your noblest part to play In those few fleeting hours When you shall be 'to-day!'"
—The Pacific.

Good Roads Sentiment.

The bad winter weather is not pleasant, but if it serves to create a determined sentiment for good roads we ought not to complain of its severity.

That it is having this effect we gather from the newspapers from all over the state. The Monroe Journal thus tells of one instance:

"Squire Ellis B. Puseer started to town the other day from his home in New Salem township driving two good mules hitched to a wagon on which was one bale of cotton. Before getting here he gave up the task, left his team with a friend and walked to town. How many more of our citizens had similar experiences we do not know. When he went back he carried a petition to the county commissioners for an

STEADFAST CONFIDENCE.

The Following Statement Should Form Conclusive Proof of Merit to Every Asheboro Reader.

Could stronger proof of the merit of any remedy be desired than the statements of grateful endorsers who say their confidence has been undiminished by lapse of time? These are the kind of statements that are appearing constantly in your local papers for Doan's Kidney Pills. They are twice-told and confirmed with new enthusiasm. Can any reader doubt the following? It's from a resident of this locality.

G. H. Ivey, High Point St., Randleman, N. C., says: "I suffered a great deal from pains through the lower part of my back and I also had trouble with the kidney secretions. Finally I got a supply of Doan's Kidney Pills and since I used them, my health has greatly improved. I have no hesitation in saying that this remedy is a good one for kidney trouble." (Statement given January 4, 1908.)

Lasting Results

On January 19, 1911 Mr. Ivey was interviewed and he said: "The cure Doan's Kidney Pills made in my case over three years ago has been permanent. I am constantly recommending this remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

CASCARETS CURE A BILIOUS HEADACHE.

Gently but thoroughly cleanse your Liver, Stomach and Bowels and you feel great by morning.

You're bilious, you have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and ill tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that every disorder of the stomach, liver and intestines can be quickly cured by morning with gentle, through Cascarets—they work while you sleep. A 10-cent box from your druggist will keep you and the entire family feeling good for months. Children love to take Cascarets, because they taste good and never gripe or sicken.

The Grand Old Bal'ad Of Old Dan Tucker.

Old Dan Tucker, he got drunk. He fell in the fire, and he kicked up a red chunk; The red hot coal got in his shoe, And, when he awoke now the ashes flew! Oh,—Get out of the way for old Dan Tucker, He's too late to get his supper! Get out of the way for old Dan Tucker, He's too late to get his supper.

Old Dan Tucker was a fine old man, He washed his face in the frying pan, He combed his hair with a wagon wheel, And he died with the toothache in his heel.

Daniel Tucker, he's a Quaker, He drinks buttermilk by the score, Supper's over, dishes washed; Nothing left but a little bit of squash.

Old Dan Tucker was a fine old man, He used to ride the Derby ram, He sent him a-whizzin' down the hill, And if he hasn't got up he's a-lyin there still.

—Journal of American Folk Lore.

The Dying Hickory Trees—Cause And Remedy.

On account of the value of the hickory for shade, nuts, and many commercial wood products, Circular 144 the Bureau of Entomology, U. S. Department of Agriculture, by A. D. Hopkins, is of special interest to the people of any community, county or state within the natural range of this valuable tree.

It appears that although there have been several and sometimes complicated causes for the death, within the last ten years, of a large percentage of the hickory trees, investigations have proved that the hickory bark beetle is by far the most destructive insect enemy, and is, therefore, in the majority of cases, the cause of the present extensive dying of the trees.

The simple and practical methods recommended in this circular will, if put into practice between October 1 and May 1, enable those interested to protect their trees.

Are Ever at War.

There are two things overabundantly at war, joy and piles. But Bucklen's Arnica Salve will banish piles in any form. It soon subdues the itching, irritation, inflammation or swelling. It gives comfort, invites joy. Greatest healer of burns, boils, ulcers, cuts, bruises, eczema, scalds, pimples, skin eruptions. Only 25 cents at Standard Drug Co. and The Retail Store.

Out Look Good for Demonstration Work.

Secretary Wilson has received the following report on Demonstration Work of the Department of North Carolina.

Demonstration Work is only four years old in North Carolina, yet it has become a power there for progressive agriculture, and, through this, for the general uplift of the home-life of the farmer.

Many farmers, advanced in age, deplore the fact that Demonstration Work did not begin several decades ago so that they might live long enough to enjoy the fruits of its teachings, thereby reaping the benefits of more bountiful crops produced at a minimum cost of cash and labor. Many farmers who have been in the work one year state that as successful farmers they are only one year old.

The work is based upon sound, well-tried and essential principles, such as a deep soil, plenty of humus, improved seed, intensive cultivation, rotation of crops, etc. That the work is accomplishing the purpose for which it was designed, is shown in a number of ways. For instance the average yield of corn in North Carolina, for the past forty years has been a little less than fifteen bushels per acre. The yields under Demonstration methods were as follows: In 1908, 37 bushels per acre; in 1909, 40 bushels per acre, and in 1910 (5,361 acres) 43 bushels per acre. The records for 1911 are not complete yet, but will probably be greater than for 1910, notwithstanding the fact that a severe drought cut off the yield through the central part of the State.

The Demonstration Work stands for the growing on the farm everything needed there in the way of home supplies. The careful records kept in the work show that these can be grown for very much less than market prices. The matter, therefore, is an economic one.

The organization in North Carolina, at present, consists of a State Agent, two District Agents, fifty-one Local agents and over three thousand farmers conducting demonstration plots averaging three acres each. The two largest demonstrations the past season were one of forty acres of corn that produced fifty bushels per acre and one of a hundred acres of cotton that grew a bale and a quarter of cotton per acre. The Demonstrators are supervised by the Local agents who in turn are instructed by District and State Agents.

The Demonstration Work has hearty cooperation with the A & M College, the Farmers' Union and other progressive organizations. The State Department of Agriculture is now cooperating financially and otherwise. Local aid for the work for the present season amounts to \$15,000.00. This shows that the people are interested in the work.

Taken as a whole the outlook is very bright for reaching and influencing in a practical way the mass of farmers in the State.

Kindly Mail Check

How dear to our heart is the steady subscriber Who pays in advance at the birth of each year, Who lays down the money and does it quite gladly, And casts round the office a halo of cheer.

He never says "Stop it, I cannot afford it; I'm getting more magazines now than I read," But always says, "Send it; our people all like it— In fact, we think it a help and a need."

How welcome his check when it reaches our sanctum, How it makes our pulse throb; how it makes our heart dance! We outwardly thank him; we inwardly bless him— The steady subscriber who pays in advance.

Seeking Away Out

That the men who control the big industrial corporations of the country are convinced that the people are determined to break up these monopolies, and that they are seeking a way to escape this mandate of the people, are among the more important facts brought out by the senate trust investigating committee.

Louis D. Brandeis, the noted Boston lawyer, told the committee that the statements of Mr. Gary and Mr. Perkins that the trusts were willing to accept a price fixing law, were only apparent concessions. What these magnates want, Mr. Brandeis said, is the passage of the Aldrich monetary scheme, which will insure the continuance of a centralized control of money and credit, on which all business depends. These magnates, the lawyer testified, are tending every effort to gain the enactment of the Aldrich plan into law, and one of their methods, he said was to blind the people to their real purpose by making them believe the trusts are willing to surrender.
