Good Roads for Randolph County

At the commencement of Why Not Acidemy, it seems that my in i dental reference to g ol roads was dental reference to g oi roads was misunderstood, so that some explaination of it is necessary. I said there that I did not believe the wise method would be to issue a million dollars worth of bonds, and this was constitued by some persons to mean that I am opposed to any bond issue for the purpose.

In the first place, this county can save several thousands of dollars a year from or sent expenses. and de-

year from present expenses, and de-vote this to the use of reals. In particular, the salary system for all county officials, which the next Legcounty officials, which the first beginning to the whole state, will save a good deal every year. This saving, I would devote to the paying of interest on good roads bonds, and issue to de to the mount of one hundred thousand

Of this amount, twenty thousand dollars should be spent for road ma-chinery for use in the townships, al-lowing every township the constant the of a good scraper and roller and the opportunity to make use of a rock crusher. The remainder of the proceeds of the bond issue should be expende | on the principal highbe expinded on the principal high-ways of the county connecting the leading towns of the county with the county seat, the townships pay-ing part of the cost.

I have known something of the road work in Mecklenburg since the beginning. They have the florest of roads there and they have made the county rich by it, but the roads

county rich by it, but the roads have cost a great deal more than they should have cos, and people are learning by this and other similar experience. For Randelph to build roads by that system for the whole county will require a bar sue of five bundred tacus and & at least, and to that I am opposed

By the system here outlined, towiships would be relieved of any expense for machiners, etc., and every dollar of the road tax could be used on the roads of the town ships and besides, the fracers course have the use of the machinery for extra service on the roads whenever desired. Then by a practical plan for building roads high in the inid dle so they can not retain the rathe and suraping and rolling them regu larly and systematically and continually, we can make good roads everywhere and at a very small expense in comparison with the old system. Severa counties have put \$2500.00 a mile into roads that in a few years were Worn out and full of mud holes and ruts.

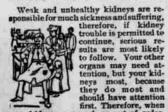

The secret of good roads is for someone who knows how to keep working on them, instead of building expensive ones and then allowing them to run dew. By this plan, every mile of public road in Randolph county can in five years be made serviceable in the very worst weather, and they can be kept in good condition all the time, and made better and better by the adding of sand and gravel,

If such a plan is adopted by Randolph county, it will not only give us good roads, but it will make this county prosperous and continted, so that there will never be any more talk of any section of it being cut off and put into another county. The subject ought to be discussed now, and the people should let it be known what they think about these

Often The Kidneys Are

Weakened by Over-Work. Unhealthy Kidneys Make Impure Blood.

sults are most likely to follow. Your other organs may need attention, but your kidneys may need attention, but your kidneys may need attention, but your kidneys may need attention first. Therefore, when you kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy. Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle, by mail free, also a pamphlet telling you have there when writing to Dr. Kingra & Co. Blinghamton, M. Y. Dent insher on the koot, and don't let a comething in place of the property of the of the prope

Huge Turtle

Colonel Bonkemeyer, the general manager and chief owner of the American Motor Company, handling Overland and Marion care, was over in High Point Friday. While he was there the hardest rain of the year fell, and with this flerce rainstorm there came down from the heavens a large turtle weighing 25 pounds. The turtle fell on the aidewalk in front of Ring's drug store and tore a bole in the hard store and tore a bole in the hard coment so large that it attracted wide attention. But the curious part of the thing was not only the coming down of the turtle from the skies, but the dreadful fall did not phase the thing at all. It just crawled off as if nothing had happened. This is the talk that Colored. crawled off as if nothing had nap-pened. This is the tale that Colonel Bonkemeyer told yesterday. The colonel says he can prove this turtle story by one Will Ring, the drug-gist, and several other bystandera,— Greensboro News.

Will Probably Lower Coal Rate

The building of the Norfolk South ern Railway from Albemarle or Norwood to Charlotte, the surveys for which will soon be completed, will unquest mably have something to do with reducing coal rates to the Queen City if Chariotte shippers can handle the matter properly, it is said. This main-line extension will give a connection with the South-bound which runs into Winston-Salem where the Norfolk & Western will be tapped. The Norfolk & Western is the great coal carrying road and has heretofore manifested a willingness to reduce rates wherever conditions called for reductions. At present all coal that comes into Charlotte is handled either by the Southern or Sea-board at this end of the line and the question of securing reductions has been a very difficult one. The new road when flushed will give an independent connection, which will and a caird factor in the delivery of coal into Charlotte.

Rockingham county voted half a million dollars for good roads last

President Taft last week granted an unconditional pardon to Willard N. Jones of Portland, Ore., convictland frauds in the famous cases in which the late Senator Mitchell of Oregon and Binger Hermann, former commissioner of the general land office, were alleged that improper methods had been pursued in filling the jury box from which the Jones jury was drawn.
