DEATH OF MISS FANNIE RICE

On the evening of October 6, Miss On the evening of October 6, Miss Marilla Frances Rice died at her home at Farmer. She was the daughter of Thomas Rice, a well known citizen of the county, and was herself well known in the county. She was born at Asheboro, where her parents then lived, May 12, 1845.

She received her education at Glen Anna Seminary at Thomasville, and until middle life was an active worker in her church at Farmer, and was always ready to do any kindness to those about her.

ways ready to do any kindness to those about her.

About twenty years ago she began to be troubled with rheumatism, and from that time until the day of her death she was never free from this relentless disease. Slowly but surely the cruel malady took from her the joys she held so dear. She became after a time unable to walk, and as time went on the use of her hands was denied her, and for fifteen years before her death she was absolutely helpless. For six years of that time she lay in one position, her limbs pitifully twisted, her joints motionless, often suffering with great pain, but in spite of all this she never for a day lost her cheerfulness and her faith in God. When friends came to visit her she never of her own accord referred to her condition or her sufferings, but kept to the last moment of consciousness her interest in neonle ngs, but kept to the last moment of onsciousness her interest in neople and things in her community and in her country. Her acquaintance with the march of evens, her accurate mem-ory, and her soundness of judgment were remarkable, and to know her

ory, and her soundness of know her was a privilege.

Throughout her long illness she was a living witness of the power of the Christian religion to triumph over afflictions the most appalling that can be imagined. Her life will long be remembered as a shining example of what faith may enable us to become under the most trying conditions.

The only members of her immediate family now living are two sisters, Mrs. D. Matt Thompson, of Statesville, and Mrs. John T. Lowe, of this county, both of whom were with her at the last.

The funeral was at Concord church, at Farmer, on the 7th, and was conducted by Rev. C. E. Steadman, assisted by Rev. J. B. Trogdon.

It is the stepping stone of the local paper may have ever saw or perhaps ever heard of, and how can you expect them to be interested? But let them have the home paper and read of persons whom they meet, and places with which they are familiar, and soon an interest is awakened which increases with every daily arrival of the local paper. Thus a habit of reading is formed and those children will read the papers all their lives and become intelligent men and women, a credit to their ancestors, strong in their knowledge of the world as it is today.

We were sorry to hear of the death of Mr. J. W. Steed. The ideas he had for the rearing of his children and providing for his family speak for the character of the man. When it comes to the point of genuine stability, manhood and citizenship, Joe Steed stands in the front rank. It can hardly be said by any one that he even went to Mr. Steed for a favor and failed to get it.

When you come to Asheboro bring your order for job printing to The Courier.

This is a sort of topsy turvy world. No one seems to be satisfied. One man is struggling to get justice and another is flying from it. One man is saving up to buy a house and another is trying hard to sell his dwelling for less than it cost to get rid of it. One man is spending all the money he can earn in taking a girl to the theater or show and sending her valuable presents in hopes that he may eventually make her his wife, and his neighbor is spending all the gold he has saved trying to get a dievorce. One man keeps a pistol to protect himself against burglars, while his neighbor doesn't keep one for fear of shooting himself or some member of his family. One man pays for his paper in advance because he can read it with a greater relish, while another takes it two or three years without paying one cent for it and enjoys it largely all the yhile. Surely a queer old world this is.

The value of advertising is felt at three ends—the merchant, the consumer and the publisher. Through the medium of his advertising the merchant acquaints the consumer with the wares he has for sale, with their values and their attractive features, and is himself constantly in touch with the consumer. The consumer reads of the goods he wants, learns where to find them and saves the time of fruitless hunting from place to where to find them and saves the time of fruitless hunting from place to place. The publisher is the go-between the medium of communication between the buyer and seller, a sort of public convenience. Strange as it may seem, he, too, has his uses. Advertising accomplishes more good and better results for all people than any one feature of commercial life. It is the modern necessity made so by the constantly increasing demand of a discriminating public.

constantly increasing demand of a discriminating puble.

Trace with the Asheboro merchants and den't waste your time. Money and temper on mail-order goods. They will cost you more in the long run and you have sent your money out of town. Keep your money where you have a chance to get hold of it again. You may have an emergency when your money has gone to some mail-order house; and too, you may never see that money again. Patronize home industries and you will help yourself, help the merchants. They can save you money over the mail-order houses.

To members of the Jr. O. U. A. M. of North Carolina:
On the third day of next November, there will be submitted to the people of North Carolina for their approval or disapproval, an amendment to the State Constitution which if carried will increase the present term of the public schools from four months each year to six months each year.
Article IX, section three, reads as follows:
"Each county of the state shall be divided into a conveneient number of districts in which one or more schools shall be maintained at least four months in every year."

Regardless of creed or politics I take this opportunity of urging all loyal Juniors to support this amendment.
