Company K Has Thanksgiving Turkey

Some time ago Reid Hannah and Irvyn Burrow said, "Captain, how are we going to get turkey for Thanksgiving?" They did not question the fact that it was going to be, and they had it, not only turkey but everything that goes with it. The menu was roast turkey and dressing, cranberry sauce, candied potatoes, cream potatoes, rice pudding, fruit cake, apples, bananas, grapes and cigars.

After their dinner chief cook Chisholm promised the boys a surprise for supper which was oysters. Company K is one of a few companies in camp having the tables covered with white oil cloth, which makes the mess hall an attractive looking place, and gives a more homelike touch than the bare boards. There is another home touch to the meals. Instead of acting in the old way which was lining up and marching by the mess table to be served, each squad which consists of eight men, commanded by a corporal is seated. The corporal is supposed to sit at the head of the table and look dignified like father did back home and in some cases ask the blessing. Sufficient food for each squad is brought in by men detailed in the kitchen, and placed on the table before the men, as it is at home, and usually after a hard days' drilling the men usually consume all of this wholesome food.

Some few weeks ago the entire 30th division was placed under quarantine. Therefore the soldiers were compelled to spend this beautiful Thanksgiving day in the camp limits. Our boys are out to take what comes with a smile, and to do their duty even if it does go a little hard at times. The fathers and mothers back home in old Randolph ought to be proud of their sons, because they are soldiers, soldiers and gentlemen in every sense of the word.

Company K has been in the service of the United States since July 25th, 1917, almost five months and it has not yet been necessary for the commanding officer to send a man to the guard house. This is a very, very unusual record because it is indeed an easy job to get landed in this little house for a few hours. But as I have stated before our boys are real soldiers.

Visitors from several counties have been down to see their sons, and some of them spent several nights in camp. The boys appreciate these visits, and are willing at anytime to share their blankets with their friends from home.

Measles and pneumonia have kept the medical officers on the go both night and day for the past few weeks, but at last after much hard work the division has surrendered to the medical officers. K company has been very husky. None of our boys have died, some of them have been seriously ill but they are recovering as fast as could be expected and will soon be back with their friends in the dear old company.
