

"Cured Me of Indigestion, Kidney, and Colic Troubles"

Greenville, S. C., Man Says Acid Iron Mineral Cured Him Two Years Ago and He Hasn't Been Troubled Since

GET PERMANENT RESULTS

As proof that most people only lack pure blood to feel well all the time, the following statement is published...

If your digestion isn't extracting nourishment and your blood being enriched as it should be doctors will tell you to do just as Mr. Burdett did.

Get a bottle of this natural, highly concentrated medicinal iron which so many find unexcelled for the blood, digestion, kidneys and as a tonic to tone you up.

WE'RE COMING!

(Judge Stephen C. Bragaw.)

We are coming, Mother England, we are coming millions strong, Hand across the sea are reaching, gripped to rid the world of wrong!

We are coming, France, our sister, the glorious and fair, By your side we'll soon be fighting in the trenches, in the air;

We are coming, fair Italia, land from which Columbus came, We, Columbia's sons are coming, coming in Columbia's name,

We are coming, German Kaiser, call your hosts from hill and plain, Mass your men and mass your cannon, but your work will be in vain.

We are coming, men of Europe, we are coming millions strong, There to stay and ne'er to falter, tho' the fight be hard and long.

Hohensollerns, Landsburgs, hearken to the fast approaching beat, Of the footsteps of a nation that has never known defeat.

Secretary of Navy Daniels Urges "Do Not Repeat War Lies." Secretary of the Navy Josephus Daniels has recently appealed to the public regarding repeating stories concerning the war.

Every day or so, for example, hear a report of a disaster to an American naval vessel which never occurred. There are reports of the same kind regarding the American Army in France.

Despite emphatic denials, for example, the report is still being repeated that the United States intends to seize stocks of canned and preserved goods put aside for winter and future use by the housewives of the country at the suggestion of the Government.

Loyal Americans should refuse absolutely to give credence to any of these unprinted reports and should never repeat them. The people will be advised without delay whenever a disaster of any kind occurs to our forces or ships.

North Carolina Teachers' Assembly The North Carolina Teachers' Assembly convened in Charlotte last week with over 1,000 teachers, superintendents and school boards in attendance.

As a result of the co-operated effort, practically all the cargo space needed for the shipment of the essential Red Cross supplies abroad has been placed at the disposal of the War Council.

Getting supplies across seas does not, however, end the problem of transportation. The French railroads are overtaxed and have all they can do in taking care of the military needs of the army.

President Allen of Salisbury has rendered great service to the teachers of North Carolina. He showed wisdom in preparing such a splendid program which related to present day conditions.

Charlotte deserves thanks for its splendid hospitality and courteous treatment shown the North Carolina teachers. A patriotic program was observed on Friday night, at which Dr. Graham of the University and Governor Bickett spoke to a vast audience of teachers and Charlotte people.

Furloughs for Yuletide week will be granted all men at army cantonments whose absence can be permitted in the opinions of the division commanders, to enable them to spend Christmas at their homes.

A WAR SAVINGS SOCIETY IN ALL SCHOOLS IN THIS STATE

A Call to Duty to North Carolina's Fifteen Thousand Public School Teachers

The hour is at hand when every patriotic American citizen, whether at home or on the far-flung battle front, must do, not his bit, but his utmost to help win the war.

On patriotic day, which is soon to be observed in every school house in the State, the patriotic fervor of the children and patrons will be aroused to the kindling point.

Every school teacher in the State is asked to give a practical turn to Patriotic Day by organizing a War Savings Society in his or her school-room.

The teachers are also urged to stimulate patriotic rivalry among the children by encouraging them to enter training for the Army of Thrift.

The wonderful opportunity both for patriotic service and for self help in the War Savings plan must be apparent. Every time a child buys a Thrift Stamp he is lending twenty-five cents to his Government which will give a meal to a soldier.

The savings of the child, small as they may be, may give him a start with which to complete his education, or with which to go into business for himself.

State Director National War Savings Committee. LLEWAX'S LETTER FROM THE CAPITAL (By Maxwell Gorman.)

Raleigh, Dec. 11.—Good morning! Did you have "shark steak" for breakfast? Smoked shark, a new substitute for beef, is being placed on the market in the interest of animal meat conservation.

Raleigh, having lost its commissioner of public safety, E. M. Uzzell, who died when only seven months of his two-year term of office had expired, is now enjoying the usual scramble of seekers for the job.

Eggnog will be a scarce article of diet in Raleigh this Christmas—with "bottled in bond" whiskey or brandy fetching \$7.50 a quart and hard to get at that price.

Representative Fitzgerald Resigns Representative Fitzgerald, of New York, chairman of the House appropriations committee, has announced his resignation from Congress to take effect December 31.

Large numbers of American army engineers working on the British railways in the region of Ghent, Belgium, are being turned out of their work by German turning movements.

And that this service, when rendered by one, may be known to his neighbor, the Red Cross will urge each old and each new member to display at his home a Red Cross service flag on the increase.

of thousands of these being shown by old members into millions before the tag and each little testimony that some has been made happier himself, happier for our happier for the soldiers.

terms of a decision by Adoo, the business of all companies incorporated in the United States is to be liquidated, unless they are allowed to continue existing contracts.

Toilet Articles

Velvetina toilet articles, face powders, toilet powders, soaps, cream, etc. Complete line.

Asheboro Drug Company

Soybeans Are Growing In Importance In The State

While the Food Administration of the United States is advocating the use of soybean flour in many recipes to take the place of the scarce and much needed wheat flour, it is significant that the British Government has also authorized that soybean flour may be added to other flours made from wheat, rye, or oats, to the extent of five per cent for human consumption.

Along with the many new uses for the soybean comes reports from several counties of the State that the crop has been unusually good this year. One gentleman, Mr. E. L. Perkins, of Burke county, reports that unusual success has attended his efforts to produce more soybeans in Burke county.

Fourth grade—Henrietta Underwood, Jessie Thomas, Nellie Austin, Fifth grade—Nannie Adkins, Virginia Barker, Clarabel Bost, Corrina Kearns, Annie Leslie Ferree, Bon Phillips, Thyra Wright, Hal Rich, Frank McCrary, John Redding.

One Burke county farmer is reported to have an average yield of 15 bushels per acre from soybeans sown between hills of corn without any indication that the beans reduced the yield of the corn.

Convict Offers to Make Knitting Needles for Red Cross. Just to show the public how interested every class of people is in the Red Cross work, we are publishing a letter from a convict in the Eastern State Penitentiary at Philadelphia which was received at Washington saying:

Under separate cover I am forwarding you some samples of knitting needles which I am making of first class, kiln-dried wood.

I am a life prisoner in the Eastern State Penitentiary and have made a machine by which I can turn out these needles, and any other style or thickness you may require, in considerable quantities. All the finishing is done by hand, and the large number of prisoners here, in total idleness, as all efforts of the prison administration to provide them with work have been in vain, have offered to assist me in the polishing and waxing of them, so there is practically no limit to the number of needles I can turn out.

What Did Jesus Really Teach About War. The Courier is in receipt of the following communication which suggests a good book on war:

I have just read a great book—one that I wish every American could and would read. If it were read with an unbiased mind, I am sure that the preconceived ideas of some people would be changed.

The book is "What Did Jesus Really Teach About War," by Dr. E. L. Pell. It interprets his teaching in the light of his life. Jesus is set forth not as a mollycoddle or a pacifist, but as he really was, a man and a hero and the greatest fighter the world has seen.

Its diction is chaste, its argument convincing. There is not a dull page in it.

Division headquarters at Camp Sevier last Wednesday announced that twenty-two promotions in the 119th Infantry had been made.

Advertisement for Sloan's Liniment for Sore Muscles, Stiff Joints, Sprains, etc. Includes an illustration of a hand holding a bottle.

Honor Roll, Nov, 1917

Tenth grade—Not any.

Eleventh grade—Eva Lewallen.

Red Cross Transportation As a result of congestion and various war conditions affecting the shipment of goods across the ocean and on the railroads of Europe, the American Red Cross has organized a special transportation service to handle the vast quantities of medical and relief supplies consigned almost daily to France, Belgium, Italy, Serbia, and other belligerent countries.

As a result of the co-operated effort, practically all the cargo space needed for the shipment of the essential Red Cross supplies abroad has been placed at the disposal of the War Council.

The subject of health conditions in our schools, better attendance, longer terms, plans to make schoolhouses safe from fire, higher salaries for teachers, and various other school problems discussed. Possibly the most important topic was, "The Relation of the School to War Conditions," and how the school can render aid in helping win the war.

Colonel F. H. Fries of Winston gave his plans for carrying on the Thrift Campaign and what services the teacher and pupil can render.

Many distinguished school men and women of both North and South gave lectures which were helpful and inspiring: Dr. Flexner of New York, and Dr. Horne of Houston, Texas.

President Allen of Salisbury has rendered great service to the teachers of North Carolina. He showed wisdom in preparing such a splendid program which related to present day conditions.
