

WHY AMERICA IS IN THE WAR

(Continued from first page.)

We had a distinct American issue. The issue that I have mentioned—murdering our people, closing to us the seas. We had the opportunity to fight with the allies helping us or fight the battle alone. So it was a wise choice to fight with the allies.

American citizenship must mean something in the world. You remember the incident of Paul. When they found Paul he said unto the centurion that stood by him: "Is it lawful for you to scourge a man that is a Roman, and uncondemned?"

There is a world issue, however, than what might be termed merely the American issue. There is a world issue. We can not divorce ourselves from it. We must be a part of the great world's work whether we will it or not.

Count von Hertling recently said in a speech that Germany was saving Europe from America. Saving it—what mockery. They have placed women and children before their soldiers in charges against the French troops.

U. S. Airplanes "Let us blind Germany with airplanes; retaliation; 10,000 American airplanes on the way from the front the sea will be rid of the most hellish wailing the stars and stripes to the flagpole of the Kaiser."

"The building of ships likewise includes destroyers. We have done marvelous work with our destroyers. The captain of a great ocean liner related to me that within a few days after the American destroyers arrived the lessening of submarine activities was noticeable."

"These boys over the destroyers, never sitting down to their meals, eating from their hands on tumultuous seas, braving all dangers, are some of the unnamed heroes of this conflict."

TERIBLY SWOLLEN

Suffering Described As Torture Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks."

SUFFERING FROM COLL

If you shiver in frosty weather, if you have cold hands and feet, if colds are stubborn and frequent, then your blood may be thin and impoverished

SCOTT'S EMULSION

has been correcting this condition for nearly fifty years. It possesses rare powers for creating natural body warmth, for charging summer blood with winter richness and strengthening both throat and lungs.

The Norwegian cod liver oil in Scott's Emulsion is now refined in our own American laboratories which makes it pure and palatable.

While the Russian situation is not to our wish, let us be charitable with the Russian people. They have done great work in the past. They saved the world line. Let us be thankful for what Russia has done and prepare all the more to take her place in the world.

"There is no reason for gloom. It took Great Britain two years to get on a firm war basis. We need not be discouraged. The British and French will hold the line until we can come, but come we must with all reasonable speed that we can summon."

Sacrifice Over There "They are sacrificing over there. What are we doing over here? The people of Great Britain and France have gone to the limit of sacrifice. Have we even reached the point of feeling it? We need not worry about the spirit of our people. It is right. The patriotism of one section of the country is no greater than the patriotism of the other."

"Patriotism does not consist in attending banquets with seven or eight courses to argue the food conservation question. Nor is it particularly evidenced by rising when the orchestra plays the Star Spangled Banner and then rushing to the telegraph office and wiring members of Congress: 'For God's sake not to increase the taxes on those things that affect us.'"

"America is responding splendidly; the great Red Cross movement glorifying the womanhood of our country, the Y. M. C. A., the Knights of Columbus, bring the little touch of home to the boys over there. And on the liberty loan the whole country has responded nobly and will continue so to do."

"Nothing could assist Germany more than this present peace talk, and the talk likewise that Germany is exhausted. Peace is alluring, of course. No one wants to stand against peace. Everyone wants peace; but what use is an unavailing peace, and what would it amount to now? A more expedient requiring going over the ground again in a few years unless Germany should submit to disarmament. Will Germany submit to disarmament unless Great Britain submits to giving up its navy? Does anyone believe that Great Britain will be willing to give up its navy?"

"GO THE LIMIT" WEEK

Big Drive to Secure Membership to \$1,000 Club—One Per Cent Population Expected to Buy \$1,000 War Savings Stamps

"Have you gone the limit?" This is the compliment the officers and agents of the War Savings Campaign pay a man, or woman when they wish to know if he is a member or will become a member of the Thousand Dollar War Savings Club, otherwise known as the Limit Club.

The first week in March, from the fourth to the ninth inclusive, is to be known as "Thousand Dollar Week." Plans are being made at State headquarters at Winston-Salem for every county to make, during this week, an intensive drive for membership in the Thousand Dollar Club.

According to the plans for conducting this feature of the War Savings Campaign, every county is expected to enlist at least one per cent of her population in this club. Men and women who have already purchased the maximum amount are already members and will be asked to act as special agents in promoting the "Thousand Dollar Week Campaign" and increasing the membership of their club.

Membership in this club requires the applicant to save systematically, to refrain from unnecessary expenditures and the purchase of non-essentials, to encourage thrift and economy in his community, as well as the purchase of War Savings and Thrift Stamps, and to purchase in the year 1918 War Savings Stamps to the amount of \$1,000 maturity value.

Civilian Flying Instructor Guy H. Reagel, of Chicago, and Cadets Robert Gray, Jr., of Long Island, N. Y., and James H. Webb, of Rome, Ga., were killed at Park Field, near Memphis, February 23 when the aeroplane in which the men were flying collided and fell about 800 feet.

GIRLS! GIRLS! TRY IT! STOP DANDRUFF AND BEAUTIFY YOUR HAIR

Hair Stops Falling Out and Gets Thick Wavy, Strong and Beautiful

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse."

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a small bottle of Knowlton's Danderine from any drug-gist or toilet counter for a few cents.

if autocracy succeeds in Europe. We learned in '61 that this union could not be half slave and half free, and so we know today that the world cannot be half cruelly autocratic and half humanely democratic. We know that righteousness and not ruthlessness must rule the world. There is a deep-set purpose in the hearts of our people to fulfill every obligation to the great duty that God has placed upon us. Loyalty, sacrifice, efficiency will win this war. In this contest of the allies and the United States which the historians of all times to preserve the freedom of men and women throughout the universe, we rejoice to believe that there is no east, no west, no north, no south. A united people under one flag, marching on to the music of humanity. A people undecieved and unbeguiled by false peace moves born of German intrigue; a people determined that when peace comes it shall be a permanent peace; a people with vision enough to know that a peace won without the destruction of the Prussian military machine means simply getting ready for another terrific war; and a people devoted to peace; but knowing that no permanent peace can come by any arrangement with the present ruling class of Germany, they fight on with determination and with their faces fully to the light."
