Prof. Dougan Clark Johnson, for five years superintendent of Trinity high school died at his home in Trinity March 3rd, 1919. He leaves a wife and four children, two sisters, Misses Rose and Emma Johnson and many friends throughout the state. Prof. Johnson was a son of Rev. D. C. Johnson and Mary Thompson Johnson. He was born October 24th, 1875. He was graduated at Trinity College in 1894 of which institution his father and uncle were the first to graduate. As son, brother, husband, father and friend Prof. Johnson was all that the most exciting could wish for. As a teacher he was firm, but kind and true to the best interests of his pupils, always urging them to high and true ideals. Since he came here five years ago he has filled almost every office in church and Junior Order, and did it all well yet with so much modesty and humility, that everybody was pleased.

"He was a man take for all in all— We shall not look upon his like again."

His many friends at Trinity and throughout the state, especially those he has taught, will feel that the loss is irreparable.

Germany Cannot Fight, Can Only Protest

It is impossible to take seriously the efforts to work up a panic over an alleged new German peril. Whatever Germany's remaining "man power" may be, its war power has shrunk to insignificance. Its navy is gone, its armies are rapidly demobilizing, its neither resources nor will to resume the war. The utterances of the new German leaders upon this subject have been grossly misrepresented; they are far from showing what is called a "truculent" spirit, and indeed expressly emphasizes the helplessness of Germany. Even if impossible terms should be demanded the German government would be unable to resist. Its sole defense lies in the inalienable right of protest, which under some conditions is a very effective defense. If terms were to be demanded assent to which would destroy popular support for the new government it would be well within its rights in refusing to sign and letting the allies take the responsibility; that the responsibility is a serious one Germany learned from its own experiences at Brest-Litovsk. The allies by this time fully realize that they have their hands full in taking care of Europe, without adding to the wreckage; common sense forbids compelling the German moderates to stand aside and let the bolshevik take charge.—Springfield Republican.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side. My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there. I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did. This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble. I feel it was Cardui that cured me, and I recommend it as a splendid female tonic." Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists. NC-152

SOLID SECURITY FOR YOUR BONDS

It is the Wealth of This Great Country Somewhere Near Hundred and Fifty Billions of Dollars.

How many holders of "Liberals" realize fully the security that is back of that property they own? It is the wealth of the richest nation of the earth. Here's but a glance at what that wealth comprises. With 6 per cent of the world's population and 7 per cent of the world's land America owns of the world supplies:

- 70 per cent of the copper. 58 per cent of the coal. 36 per cent of the gold. 66 per cent of the oil. 40 per cent of the iron and steel. 34 per cent of the silver. 60 per cent of the cotton. 26 per cent of the wheat. 68 per cent of the corn. 88 per cent of the meat supplies. Other mineral and agricultural products in proportion. Today Europe owes us \$10,000,000,000; four years ago we owed her nearly half that. Last year our annual income, that of all the people and industries, is today something like \$70,000,000,000 annual and our national wealth close to \$250,000,000,000. Don't sell your government securities. They will mean more to you and by.
